

# 85 ARE KILLED IN BLAST

## SUFFRAGIST FIGHT IS NOW UP TO STATES

Following Victory in Congress Woman's Vote Battle Switches to Legislatures

Antis Hope for Delay in Alignment of South and New England

WASHINGTON — Woman suffragists, fresh from their victories in congress, Thursday were planning their campaign before state legislatures to win the right of nationwide vote before the next presidential election.

Leaders of the women's parties here said it could and would be done. "The women of this country will vote in the 1920 elections," Miss Alice Paul, chairman of the National Women's Party, telegraphed here Wednesday night. A similar sentiment was voiced by scores of other suffrage leaders.

Senator Wadsworth, New York, an anti, conceded that ratification of the suffrage amendment, which passed the senate late Wednesday after a 41-year battle before congress, would probably be completed by a sufficient number of states to make it a law within a short time.

**ANIS HOPE FOR DELAY**  
"Pressure brought to bear on the state legislatures will not be without effect," Wadsworth said. Other "antis," however, were hopeful that an alignment between southern and New England states, might delay the amendment's ratification.

It was with something of a sigh of relief that congressional leaders Thursday saw the suffrage fight pass to the state legislatures. During the last 41 years, suffrage has participated many a battle royal in the two houses of congress and the vote Wednesday, resulting in its passage by the senate 56 to 25, was the fifth taken in the upper branch. The house has voted even more often on the proposal.

**URGED BY WILSON**  
President Wilson has several times recommended passage of the amendment in messages to congress, making a strong special effort before the senate in the last session, without avail.

Suffrage leaders Thursday sent word to their state workers and special representatives in many states the words "get busy."

Legislatures are in session in Pennsylvania, Illinois, Massachusetts and Wisconsin. The Ohio legislature meets June 16, and will ratify the amendment before adjourning. Representative Beetham, a member who was in Washington when the vote was cast, predicted Thursday.

In states where regular sessions will not be held within a short time, efforts will be made to have special sessions called for the specific purpose of ratifying suffrage. Workers said special sessions already are in prospect, they announced, in Michigan, Texas, Georgia, Alabama.

## MAY GO TO VOTERS

**COLUMBUS**—No time will be lost by Ohio suffrage leaders in bringing the ratification of the federal suffrage amendment before the state legislature.

Miss Harriet Taylor Upton, president of the Ohio Woman's Suffrage Association, will be here June 16, to urge immediate action on the legislature, when it reconvenes.

It ratified by the legislature, it seems probable that the amendment will be submitted to a referendum in the fall, along with the prohibition amendment.

Assurance of support from the legislature was voiced by E. M. Fullington, vice chairman of the Republican state advisory committee.

"The legislature will follow the wishes of the state suffrage organization at the recess session beginning June 16 or in November," he said.

## SPECIAL SESSIONS

NEW YORK — "Special sessions for immediate ratification" was the new suffrage battle cry, sounded Thursday by Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association. As the majority of states do not have regular legislative sessions between now and a year from November, special sessions will be necessary to ratify amendment in time for all women citizens to be able to vote for president in 1920. Mrs. Catt predicted that 27,000,000 American women of voting age will get what they are after.

In the states where special sessions are necessary, the governors will have been asked before the sun sets Thursday evening, to call the sessions, Mrs. Catt said.

## FOE WILL LEARN FATE BY JUNE 12

Allies to Answer Germany's Counter-Proposals Within A Few Days

Turks Must Accept Terms Without Hearing, is Decision of Big Four

PARIS — The allies' answer to the counter proposals will be handed to the Germans before June 12, it was learned from an authoritative source Thursday.

The big four Thursday heard Premier Paderewski regarding upper Silesia which some of the allied delegates now advocate being retained by Germany instead of being awarded to Poland. The premier also presented his version of continued fighting between the Poles and Ukrainians after his assurance that hostilities would cease.

## TERMS TO TURKS

The big four have decided to call in the Turkish Peace delegates, according to an unofficial report Thursday. The exact date has not been fixed.

From the same source, it was learned that the Turks will be considered merely as "witnesses" rather than fully accredited plenipotentiaries. This was accepted as indicating the Turks will be given practically no opportunity for discussion of the terms and will have to accept the conditions exactly as drawn up by the allies.

America's part in drawing up the Turkish treaty is expected to be largely confined to an advisory role, although the question of accepting mandates over former Turkish territories probably will figure in the discussion.

## TREATY MODIFICATION

The question of modification of the German treaty continued to occupy the attention of the big four, as well as the experts of their respective countries. The American experts are standing on the same ground they did at the start of the negotiations. A few days ago, it was believed the proposed changes rested largely with Premier Lloyd George, but the British are said to have executed such a complete about face in favor of the modifications—which fit in with the original contentions of the Americans, that there is little left for the Americans to do but bring the British and French closer together.

Premier Clemenceau is standing pat against any change in the terms.

## FIRES ON BOYS, THREATENS COP

The joint report of the American, British, French and Italian experts was expected to be turned over to the big four in time to permit an answer to the German counter proposals this week.

**Prompt Action of Fellow Officer Prevents Injury—"Preacher" To Get Hearing**

Armed to the teeth, A Penny, 722 Fairview, thought to be insane, terrorized the neighborhood in the vicinity when he chased two lads, Dale and Robert Coulter, aged 11 and 12, 714 Holmes avenue, firing five shots at them which went wild.

The man who lives the life of a recluse frequently preaches to an imaginary congregation at his home. Wednesday night when the youths stopped to listen it is said that he became enraged, seized a gun and attacked them.

Neighbors called police and only prompt action upon the part of Detective Sergeant McCoy prevented one of his brother detectives from being shot when they attempted to arrest Penny. McCoy grasped the wrist of the man just in time to prevent its discharge.

Penny will be given a lunacy hearing in probate court.

**"SET FOR HELL"**  
ATLANTIC CITY—"The modern stage is set for hell," Rev. William Burgess told National Social Service Work Conference. "No hug step or wriggling monstrosity is too vile for the stage."

## ENCOURAGE

Your carrier boy by having his money ready for him when he calls Saturday. He is a very young business man and needs your encouragement and prompt payment each week so he can make a good start in his young business career.

## "Morning After" Reliefs Popular

Another prediction has been proved wrong.

When the time for prohibition approached it was forecast that the "morning after" reliefs would wane in popularity, but such is not the case.

Downtown druggists say the sale of bromo seltzer and other kindred concoctions has not fallen off.

Many men who have not tasted liquor for more than a week are using them, druggists say.

One man declared that the effect of not having it is worse than the morning after feeling. It is for this they are buying the stuff.

## DRAGNET SPREAD THRUOUT NATION FOR TERRORISTS

"Listing Posts" Set Up to Thwart Further Bomb Outrages

Headquarters of Searchers May Be Opened in New York

WASHINGTON — "Listing posts" are being set up thruout the country by federal agents to thwart further outbreaks of terrorists threatened by anonymous circulars which have come into the hands of officials.

While government authorities Thursday, headed by William J. Flynn, continued the pursuit of clues in an effort to trace the anarchists responsible for the attempt on the lives of Attorney General Palmer and other officials in the east Monday night, few promising developments were reported.

NEW YORK—New York's corps of experienced bomb throwers hunters was out of the city Thursday in connection with the search for anarchists who caused ten explosions in eight cities Monday night and Tuesday morning.

Inspector Faurot and Deputy Commissioner Lahey were reported to have gone to Pittsburgh to interrogate John Johnson, alleged I. W. W. leader, held there, who was said to have given valuable information.

Others went to Paterson, N. J., and to Washington to co-operate with the police and secret service agents at work in the bomb mystery in those cities.

The mayor of Paterson has issued a warning to all anarchists and Bolsheviks, intimating that they will receive rough treatment if they invade that city.

William J. Flynn, famous detective, who is in general charge of the bomb plot probe, may come to New York Friday and open headquarters here, it was stated by police. This move, however, will largely depend on whether the trail leads in this direction.

## PLAN BIG JUBILEE

Van Wert County To Honor Returned Soldiers

VAN WERT—Van Wert county will have the biggest celebration this year that it has ever known. Plans are now being made by a joint committee from the business men's organization, the executive committee of the county war council, and the soldiers reception committee. The entire affair will be held in honor of the county's returned soldiers and prominence will be secured. Efforts are now being made to secure Major General Leonard Wood, Theodore Roosevelt, Jr., or Secretary Daniels of the Navy.

As at present outlined, there will be a big dinner served to the soldiers at the fair grounds, special athletic events will be held and there will be a big fireworks display at night. Other features are being added to the program daily.

## MAY DEFER SUFFRAGE

HARRISBURG, Pa.—Pennsylvania legislature, now in session, probably will not be asked to vote on ratification of the federal suffrage amendment. Suffragists met Wednesday with senate leaders and it is understood an agreement was reached to delay the vote.

## LITTLE HOPE FOR RUSSIA, SAYS WRITER

Tasks Undertaken by the Bolsheviks Believed to be Impossible

Economic Policy Not Sufficient To Rebuild the Devastated Country

BY FRANK J. TAYLOR  
(Copyright, 1919, by the United Press.)

PARIS—The economic planks in the Bolshevik platform appear to be the weakest part of the soviet structure.

Rebuilding Russia is almost a superhuman problem. Even the Bolsheviks are beginning to wonder if it can be done thru Bolshevism. They are also beginning to realize that Bolshevism stands or falls with the results of their economic experiments, since communism has made everyone dependent upon the state for a livelihood. The Bolsheviks have voluntarily shouldered the enormous task of feeding, clothing and financing everyone in Russia.

## PEOPLE BEGIN TO DOUBT

So far they have been able to meet the doubters with the statement: "We have had no chance to develop the economic phases of communism, owing to political and military opposition."

Soviet Russia is in the throes of a race between the money run off the printing presses and the increase of prices and wages. By confiscating all the bourgeoisie's printing presses, the Bolsheviks have kept pace and they have increased wages almost monthly to meet the rising cost of living. Everyone has begun to wonder if this financial marathon can be stopped short of an actual collapse. The peasants have become skeptical and refuse to sell food for roubles, which the Bolsheviks print in huge pages like postage stamps. A number of times I have seen a commissary reach into a desk drawer, pull out a square yard of roubles and hand it to some one, who would tear off a string of dozen or more without bothering to separate the individual 20-rouble pieces. Strings like stamps are carried by everyone.

## FACTORY PRODUCTION

Stimulating factory production and replacing individual initiative is a problem that bothers the Bolsheviks. It is not difficult to take over a number of factories and run them by means of soviets, but establishing new industries is another matter. A new supreme economic mission has been appointed in an effort to stimulate industry and replace capitalist initiative. So far, its accomplishments have been confined to planning.

The greatest test of Bolshevism will come when their army is demobilized, necessitating their coping with an enormous unemployed problem. They are offering concessions to induce capitalists, foreign preferred, to build up the railways and new industries, which the state would take over at the end of a number of years. But they want the capitalists to grant the same labor conditions as the nationalized industries where the working day has been reduced to six or eight hours and wages are decided by the unions. The capitalists declare it is impossible to meet these conditions, since the state makes up the deficits under which the communized industries are operating.

## FOOD PROBLEM

Getting food to the industrial centers is a difficult problem, owing to the shortage of locomotives, which is due to military demands. There is plenty of food in Russia. Villages are over-stocked while Petrograd and Moscow are starving on rations, the money buys anything, at exorbitant prices, from the street markets which the Bolsheviks no longer seek to control. The government seeks a limited amount of food to these co-operative markets, recognizing these official categories: Full rations for manual laborers; light rations for office workers, and hunger rations for the bourgeoisie. Everyone is obliged to patronize these open markets. When I was in Petrograd recently, these prices were quoted to me:

White flour, 2,000 roubles a pound; butter, 200 roubles a pound; sugar, 250 roubles a pound; bread, 80 roubles a pound; potatoes, 25 roubles a pound.

The average workman's wages are 30 roubles a day. With four-fifths of the factories idle, railroads in disrepair, buildings run down and nobody taking a personal interest in anything, rebuilding Russia, is almost a hopeless problem, even for the idealistic Bolsheviks.

## Men Are Hurlled to Death When Electric Wire Sets Off Powder In Mine Tunnel Near Wilkesbarre

Sixty Are Injured, Many of Whom Are Reported Dying—Death List May Reach the Hundred Mark

WILKESBARRE, Pa.—Eighty-five men were killed and more than 60 injured, many probably fatally, Thursday morning as the result of an explosion in the Baltimore tunnel of the Delaware and Hudson Coal Company, near this city. First reports stated that 125 men were killed but a later checking up at the various morgues here reduced the number to 85. The latest checking up showed that many names had been duplicated and thus caused a higher estimate of dead.

With many of the injured at the hospitals reported as dying, it appeared at 1 o'clock Thursday that the death list may reach the one hundred mark.

Thursday's accident is said to be one of the worst in the history of the anthracite coal region, the Avondale disaster, in which 108 men lost their lives, being given as the worst.

At the time of the accident there were sixteen cars carrying 200 men to their work in the mines, when, it is said an electric wire fell into a carload of black powder, causing the explosion. Soon afterward every morgue here was pressed into service and the hospitals filled with the injured.

There was but little force to the explosion and as a result, few of the victims were mangled. The explosive was black powder and it caused terrific flames and fumes. Many of the bodies were found in a trench of water that runs alongside the tracks.

Many pathetic scenes have been enacted, when a mother or child identifies the charred body of the family's bread winner.

Most of the victims are American-born and a good many of the younger men are veterans of the world war. There were about 300 men riding the cars that were entering the mine at the time of the explosion. Survivors of the accident claim that about 100 feet in the mine a live wire dropped from the ceiling. The men on the fourth car stopped and started to fix the wire. In some manner sparks flew from the wire and ignited the black powder. A blinding flash burst forth and it was immediately followed by several others. The suction from the mouth of the tunnel carried the flames toward the men, many of them being suffocated or burned.

Thousands of frantic women and children are rushing from one undertaking shop to another in an effort to learn whether their loved ones are among the killed.

## CAUSED BY WIRE

The explosion was caused by an electric wire which fell into a carload of black powder. There were 16 cars, carrying 200 men, entering the tunnel, when the explosion occurred. Most of the men died as the result of inhaling flames, but many were blown to atoms and others were drowned in a trench of water that ran along the side of the tracks.

Among the identified dead is "Chuck" Connors, a war hero, who returned from France a week ago. Another is John McCloskey, former pitching star of the New York State Baseball League. The accident occurred at 6:40 o'clock while the men were on their way to work. The explosion could be heard for miles around. If it had been a carload of giant instead of black powder, it would have blown away the greater part of the east end of this city.

By 7 o'clock thousands of people gathered at the head of the tunnel. As the dead were removed they were placed on a slide hill. The scene resembled a battle ground. Mothers, wives and children rushed from one body to another and women fainted when they recognized their loved ones.

Hurry calls were sent to every physician in the city and a stream of speeding motor cars proceeded to the scene. Every coal company rushed ambulances and first aid crews to the tunnel. Many of the victims died immediately after reaching the surface.

The foreman of the tunnel was riding on the fourth car to enter the mine and he escaped without injury.

The checking up of the dead continued Thursday afternoon. Figures given out by undertakers showed the death list at 93, but company officials insist it will stay under 90.

Forty-six bodies have been identified. Relatives are still crowding around the morgues and special police have been summoned to keep order.

Many of the bodies have been burned beyond recognition. At the hospitals, it is reported that several men are dying.

All bodies have been removed from the mine and the scene of the accident has been practically deserted. All interest now centers on the morgues and hospitals.

This sight just outside the tunnel a little while after the accident, was one never to be forgotten. Scattered about on the grass on a little hill overlooking the entrance to the tunnel, lay the bodies of the dead, making a picture of horror that rivaled with the battlefields of France.

## MAY REQUEST WILSON'S AID IN LABOR WAR

Atlanta Considers Asking Removal of Burleson From Wire Row

Strike Threatens to Become General Thruout U. S. And Canada

ATLANTA, Ga.—With strikers claiming steady increases to their ranks, Atlanta's telephone and telegraph strike continued Thursday.

Mayor Key, unsuccessful in an effort to bring the striking wire workers and representatives of the federal wire administration together, was considering cabling President Wilson at Paris to take the situation out of Postmaster General Burleson's hands.

## 325 TELEGRAPHERS OUT

Possibility of the strike spreading to other labor organizations was quieted for the time being at least Wednesday night, when at a meeting of labor organizations, conservative leaders forestalled any attempt at a sympathetic strike.

Latest claims by strike leaders placed the number on strike above 1,100, including 525 telegraph operators who quit work Wednesday.

This number, Western Union and telephone officials say, is considerably exaggerated.

A number of strike breakers will arrive here Thursday, according to Western Union officials.

## SPREAD THREATENS

WASHINGTON—President S. J. Konekamp, of the Commercial Telegraphers Union of America, Thursday declared that unless the Atlanta situation is settled very quickly "the strike there will involve the entire United States and Canada."

"Telegraphers and electrical workers in every section of the country are demanding that I sanction the strike they have voted and it will be impossible to keep them at work much longer. I will announce the date of the general strike within 7 hours," Konekamp said Thursday.

## WILL RID UNION OF BOLSHEVISTS

Federation of Labor to Oust Radicals From the Body

WASHINGTON—Measures to disassociate organized labor from all anarchist and Bolshevik elements will be taken by the American Federation of Labor at its Atlantic City convention open June 9, Secretary Frank Morrison said Thursday.

Resolutions stating that there is no place in organized labor for these radicals are expected to be offered, Morrison said.

"In addition all local unions will be urged to take strict measures to prevent lawless factions from asserting their influence in the work of organized labor," Morrison said. "We will seek to prevent a repetition of the Seattle strike, where radicals gained control and caused a general strike."

Morrison will press his recommendation before the convention for the closing of immigration, on the ground that lax immigration laws made possible the recent bomb plots. He left for Atlantic City Thursday to make preparations for the conference.

Assurance has been given that the condition of President Samuel Gompers is improved, and that he will be able to preside at all sessions.

Gompers is expected to ask the convention for some action that will enable congress to repeal the war-time prohibition law. He will also speak in approval of the international labor commission which framed the labor provisions of the peace treaty.

## QUIET FOLLOWS STRIKE RIOT AT TOLEDO PLANT

TOLEDO.—Quiet prevailed Thursday with the Overland automobile plant, scene of Tuesday's riots, still closed. No word regarding the dispatch of state troops has been received from Governor Cox. An investigation of the deaths of two men shot on Tuesday night, was begun Wednesday afternoon by Coroner Hartung. Funerals of the victims will be held Friday.

## AID OF COURT IS SOUGHT TO OPEN TOLEDO FACTORY

Suit is Filed Asking Order For Resumption of Overland Plant

Company, Labor Leaders and Unions Named as Defendants

TOLEDO—Aid of the United States district court, John M. Killits, federal judge, has been sought in an effort to bring about the re-opening of the Willys-Overland.

The federal court was brought into the controversy when the Dail-Overland Company, a North Carolina corporation, filed suit asking the court to order the resumption of operations at the plant and to enjoin all of the defendants it names, and any others from interfering with the operation.

The suit names as defendants the Willys-Overland Company and all of the labor leaders and unions involved in the strike troubles which caused the plant to shut down after fatal riots on Tuesday.

The Dail-Overland Company alleges that it has a contract with the Willys-Overland company extending from January to October, under which the latter was to deliver 2,400 cars in monthly allotments. It says it has received only a small proportion of its May allotment and that it and its agents are entirely out of cars. Judge Killits has set Saturday for a temporary hearing.

## STREETS SO BAD IN DAYTON JUDGE WILL NOT FINE AUTOISTS

DAYTON, Ohio—Following a determined effort of police officials to enforce the traffic laws of the city, during which time scores of arrests were made, Judge Budroe has announced that until the streets are placed in better condition, it would be an imposition to continue to assess fines and that none would be imposed hereafter.

Of those who were arraigned to day, 80 per cent claimed that their lights were jarred out by hitting bumps and holes.

"Each law should be enforced," remarked the judge, "but to attempt to drive a machine on the streets of Dayton with only the dimmer lights on would be courting damage to the machine as well as possible injury to the passengers."

### SUMMER GOODS ARE IN DEMAND

Women Buying Filmy Materials  
and Furs—Business Out-  
look Bright

Light shimmering things for summer wear are now occupying the attention of the feminine mind. Un-

usual activity is being displayed in the purchase of waists, transparent and filmy and other articles for the woman who wishes to stay cool.

Ready-to-wear summer clothing is also coming in for its share of patronage from Millady. Downtown stores report the sales in this department are far ahead of any other similar season and are caring for large crowds of shoppers daily.

Summer furs are not far behind in the sales list of busy stores. These popular adornments of the feminine shoulders are rapidly coming into vogue.

Prices are rapidly advancing with the constant demand for these articles, according to one downtown merchant. However, this does not seem to deter the sales.

More people are buying summer clothing now than before, which seems to indicate the continued prosperity of the city. The ready-to-wear departments of the city stores is a good barometer of the financial condition of the people, dealers say. Inasmuch as there is much more purchasing power displayed by shoppers, it leads to the statement by one of the heads of Lima's largest department store that the indications are for a continued era of heavy business.

In other mercantile houses the same conditions prevail.

### DIRECTOR TAKES STEPS TO GUARD PEDESTRIANS

Service Director Metheny will take immediate steps to insure the safety of pedestrians along north Main street in the vicinity of the old Feldman building.

Workmen are engaged in razing the structure and the director states that the present precaution taken by the contractors is not sufficient. A permit to blockade the sidewalk will be necessary and the erection of a board fence to completely enclose the danger zone will be asked of the contractors, he said.

**SMITH NAMES STEWART**  
COLUMBUS.—Secretary of State Smith Wednesday appointed Dr. D. G. Stewart, of Ironton, as Republican member of the Lawrence country board of elections. The follows a bitter factional fight between Republicans there. The other faction wanted the job to go to W. G. Shattuck.

**LIQUOR MEN "ASSURED."**  
WASHINGTON.—New York liquor interests were informed last fall by members of congress that war-time prohibition "would take care of itself next July." Adolph Neurad, attorney for New York dealers, told the house judiciary committee Wednesday. He asserted Senator Simmons had told him "not to worry" about war-time prohibition.

### CANNED FRUIT IS BECOMING SCARCE

Ban on Sugar During War is  
Reason Given—Sugar  
Supply Low

A dearth of canned fruits is confronting local market as several of the varieties of choice delicacies being practically off the market.

Retail grocers are unable to procure adequate supplies of canned goods from jobbers, who claim that they have been depleted of the various articles.

The cause of this shortage is due, it is claimed, to the fact that sugar was placed under the ban during the war period, and but little home canning was done.

Sugar is getting low, and stores are just about able to keep enough stock on hand to cater to their customers.

The first of the home grown strawberries have been placed on the local markets, retailing at 38 cents a box. They are of good quality, and the stock is expected to be large and satisfactory.

### Three D's Heals Three

"A terrible itching commenced on my body, 14 bottles of D. D. D. completely cured me."  
"I saw a remarkable cure of a boy born with Eczema."  
"A single bottle cured another case, Salt Rheum of the hands."

### Bathing Suits Now Are Ready

Bathing suits for your summer vacation period or the week-end spent at the lakes are now ready. Lima stores are displaying large lines of them.

Relief from the hot, scorching weather is afforded with the showing of fashion's latest models in one piece suits, fairly inviting a plunge in the cooling waters.

No new departures from the favored Annette Kellerman style are noticeable, but the latest creations cling to the form-fitting one piece article—and without stockings.

The newest displays in Lima shops include all patterns and their makeup shows a riot of color. Navy blue with crimson trimming, sea green edged with pink are some of the newest shown.

### LIMA MERCHANTS ARE WELL PLEASED WITH FIRST SUBURBAN DAY

At a meeting of the Retail Merchants Association held Wednesday night to discuss and review the Suburban Day plan and success, the verdict was entirely unanimous and ultra-optimistic.

All of the local merchants voted for a continuance of the weekly out-of-town trade inducement, and plans for added features and a broader scope were voiced.

The purpose of the Suburban Day has yet to be realized, that of relieving the week end congestion on Saturday, but it was believed that this will result from the very great success of Wednesdays for the local trade.

Both the Ohio Electric and Western Ohio traffic was heavy, hundreds of suburban residents coming to Lima to benefit from the many inducements and advantages offered by the Lima stores.

Get that summer dress from the mobilized stock sale, Friday and Saturday. Hundreds of dresses at special prices. Newson's, Public Square

### WARN MERCHANTS

Attractive Woman Has Stolen  
Money Orders, Inspector Says

Merchants in Lima have been cautioned to watch for a tall striking attractive woman, dark haired, dark eyes, and handsomely gowned, who passed under the name of Emma Vose, or May Thomas.

William E. Cochran, post office inspector at New York city, warns that she is in possession of stolen money orders and is operating in this section, passing the forged orders for merchandise purchases.

The money orders, Nos. 26415 to 26600, were stolen from Station No. 214, Chicago, and the merchants have been cautioned against loss.

**WANTED—BOYS AND GIRLS TO LEARN THE CIGAR MAKING TRADE. PAID WHILE LEARNING. OPPORTUNITY TO MAKE GOOD WAGES. BOYS SHOULD BE 16 TO 18 YEARS OF AGE AS THEY ARE MORE APT TO LEARN THE TRADE QUICKLY AND BECOME EXPERTS THAN WHEN OLDER. AS IT IS ALL HAND WORK.**

### DEVELOPMENT OF GOOD ROADS BEING GIVEN BIG BOOST NOW IN THE STATE

Good roads development is being given a boost thruout the state according to E. A. Williams, president of the Garford Motor company in a statement in which he upholds the recent activity being displayed by the present General Assembly.

"A nation-wide campaign is being made in the interests of good roads and Ohio is not falling behind. Legislation which is now pending in Columbus will give this state some of the best roads in the country," he declares.

Questions of weight, speed and many other features affecting the motor truck industry in relation to roads are being threshed out by the state legislature.

"Good roads, when they are dry and sound are not affected by heavy traffic, but when other conditions prevail the reverse is true," he says. "It is the aim of all manufacturers to find a solution of this difficulty."

**NOTICE.**  
Lots for Victory Gardens will be assigned each evening this week at 8 p. m. in the Lima Drilling Addition, S. E. Lima, by J. H. Phillips.

D. S. MILLER, D. C.,  
Lima's Pioneer Chiropractor.

# MEXICO MAY GET U. S. WINE MAKERS

Many Expected to Move Across Border When America Goes Dry.

MEXICO CITY.—As a result of the prohibition amendment to the national constitution of the United States, there promises to be something in the nature of a wholesale emigration of wine growers and wine makers from California to Mexico. Information has been received from that state that there are in the neighborhood of one hundred thousand persons engaged in that industry, who are looking toward Mexico as affording the only possible relief from the ruin with which they are threatened by the prohibition laws. They are the owners of hundreds of thousands of acres of wine grapes, which will become of little value with the enforcement of the amendment, since the varieties of fruit adapted to wine making are not suitable for other purposes, except to a limited extent.

There are extensive areas, especially in the northern portion of Mexico which possess all the requisites of soil and climatic conditions for the growth of grapes and the making of wine to fully as great an extent and of fully as high a character as California. This has been demonstrated notably in Coahuila, as well as in some of the other States, and the national government has for some time been encouraging the cultivation of the grape and importing millions of cuttings of vines adapted to this country.

The Mexican Consul-General in San Francisco, Ramon P. De Negri, is taking an active interest in the proposed emigration of California wine growers to Mexico, and has notified his government that at least eighty thousand persons, largely of foreign ancestry, are now preparing

to leave their adopted State and intend coming to Mexico. President Carranza has signified his lively interest in the movement and plans are now being prepared by the Department of Agriculture for welcoming these immigrants and aiding them in re-establishing their industry. All of the northern States—Sonora, Sinaloa, Chihuahua, Coahuila, Nuevo Leon, Tamaulipas, etc.—possess extensive areas that are adapted to the cultivation of wine grapes.

**WED ART OTTAWA**  
OTTAWA.—The marriage of Clarence Higley, Shepherd, Mich., recently returned from overseas duty, and Miss Minnie Klemman, North Ottawa, was solemnized at St. Peter

and Paul's church Wednesday. The attendants were a brother of the groom and sister of the bride. The wedding festivities were held at the home of the bride's parents in the evening.

**ANNOUNCE ENGAGEMENT**  
OTTAWA.—Announcement was made at the home of the parents, Mr. and Mrs. Frank Light, Wednesday evening, of the engagement of the second daughter, Miss Mary Louise, to Ralph Muntana, Syracuse, N. Y., the wedding to be an event of this month.

## Diamond Squeegie Tread Tires

You'll know them by their Red Sides

For Diamonds are the only standard brand tires that can boast the handsome red and black colors that add such distinction to any car.

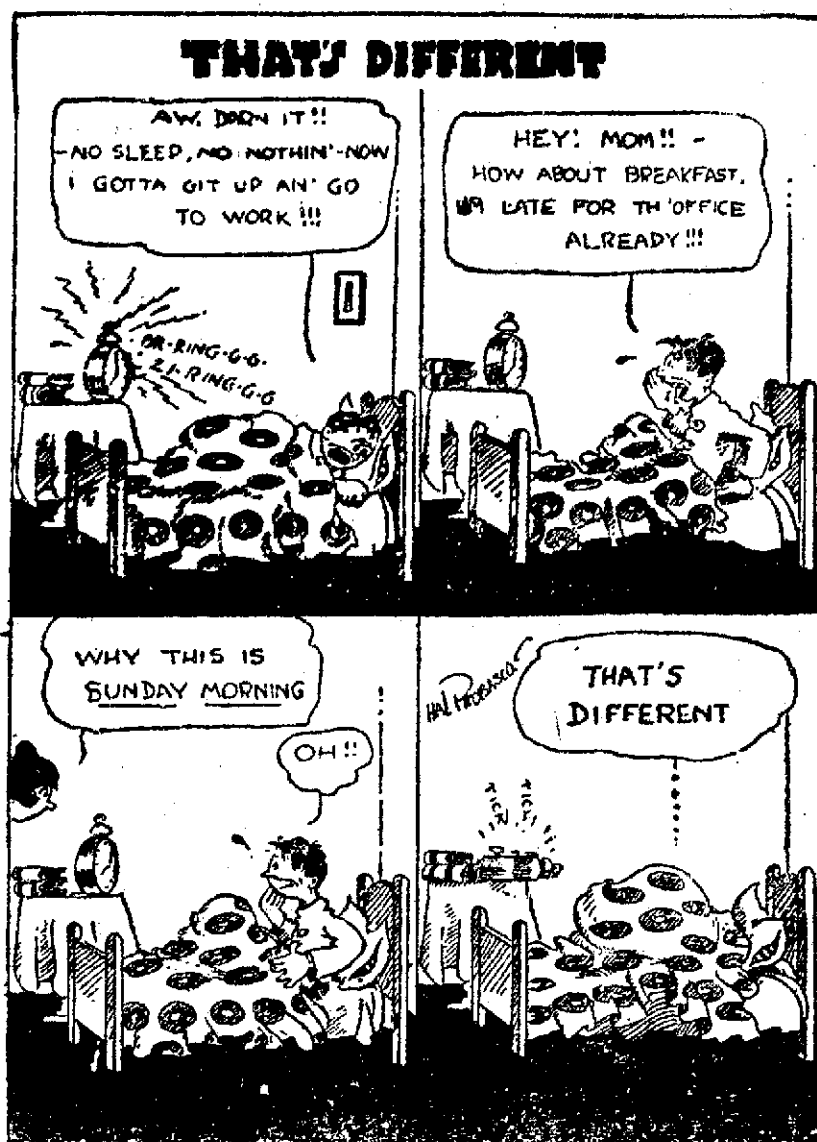

There are over 2,000,000 Diamonds on the roads of America—that means almost one for every two automobiles in this country. You'll find scores of them in this town.

Every one of those Diamonds has displaced another tire—has been purchased by a discriminating motorist who has learned that on the average he'll get most of his money from Diamonds.

Our customers are our best advertisement for Diamonds. Ask them about Diamonds when you see the Red Side Walls.

DICKENSHEETS & SON

## POLES WANT TO BUY U. S. GUNS

American Weapons May Be Used to Fight the Bolsheviks.

LONDON.—American shells and bullets, fired by American guns and "American stomachs" may be used to fight Bolsheviks menacing Poland, according to General Chevalier John De Remer, who is in London to buy munitions and food for the Polish army. The possessors of the "American stomachs" will be Polish soldiers, fed with food purchased from America.

De Remer is in London as an authorized agent for the Polish government to spend between thirty and forty million dollars for guns, shells and bullets and to buy all the food in sight.

De Remer told the UNITED PRESS he has already started negotiations with the American government with a view to buying American light artillery and rifles. He expects to make huge food purchases of Americans.

"Poland is a great admirer of America. It will never forget its generosity in helping to feed the Polish population. The work done by the Americans was wonderful. Just now what Poland wants is food and guns for its army to fight the Bolsheviks. It also wants to build up the nucleus of a Polish artillery force."

"It is for this reason we wish to buy American light guns if possible. I understand America is agreeable to selling some of them to us rather than go to the trouble and expense of shipping them back to America. We may also buy many of their rifles. We are not interested in buying heavy guns owing to the fact that roads in Poland are very bad."

"But the purchase of guns, for

which I am prepared to spend between thirty and forty millions dollars, is not the only thing we want. Poland needs food, machinery and many other things. Much of this we expect to buy in America."

## THINK WINNIPEG STRIKE IS NOW NEAR THE END

WINNIPEG, Man. — Persistent rumors were current here Wednesday that a settlement of the general strike will be effected within a few days.

Talk of amicable settlement persisted in spite of the martial law alarms of the past 48 hours. Mayor Charles Gray, Premier Norris, R. B. Russell, leading figure among the strikers, and the railroad brotherhoods mediation committee, appeared optimistic. The mediation committee announced satisfactory progress in the discussion with representatives of the metal trades workers and the iron masters.

## Pile Sufferers

Don't Wait Another Minute Before Sending For a Free Trial of My New Home Treatment That Anyone Can Use Without Discomfort or Loss of Time. New and Different From Anything You Have Ever Tried.

Let Me Prove That It Will Quickly Rid You of Pile Suffering.

### TRIAL FREE.

No matter whether your case is of long standing or recent development—whether it is chronic or acute—whether it is occasional or permanent—you should send for this free trial treatment.

No matter what your age or occupation—if you are troubled with piles, my treatment is just what you need. I especially want to send it to those apparently hopeless cases where all forms of ointments, salves, and other local applications have failed.

I want you to realize that my method of treating piles is the one safe, best treatment. The liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply send your name and address to E. E. Page, 373 A. Page Bldg., Marshall, Mich.—but do this now—TODAY.

## Grow Wheat in Western Canada One Crop Often Pays for the Land

Western Canada offers the greatest advantages to home seekers. Large profits are assured. You can buy on easy payment terms.

**Fertile Land at \$15 to \$30 per Acre—** land similar to that which through many years has averaged from 20 to 45 bushels of wheat to the acre. Hundreds of cases are on record where in Western Canada a single crop has paid the cost of land and production. The Government of the Dominion and Province of Manitoba, Saskatchewan and Alberta want the farmer to prosper, and extend every possible encouragement and help to Grain Growing and Stock Raising.

Though Western Canada offers land at such low figures, the high prices of grain, cattle, sheep and hogs will remain.

Loans for the purchase of stock may be had at low interest; there are good shipping facilities; best of markets; free schools; churches; splendid climate; low taxation (none on improvements). For particulars as to location of lands for sale, maps, illustrated literature, reduced railway rates, etc., apply to Dept. of Immigration, Ottawa, Can., or W. S. Rathery, International Bldg., Columbus, Ohio.

Canadian Government Agent.

## WAS NOT 'CATSUP'

Broken Bottle Reveals Real Contents of Barrel

COLUMBUS.—The barrel was labeled "Catsup." But when a bottle in it broke at the local American Express office, the liquid that ran out didn't smell like catsup.

Expressmen investigated. They found a dozen bottles of catsup packed in straw in the top of the barrel, but below the layer was several dozen quart bottles of bonded 100 proof whiskey.

The barrel was addressed to Nick Cehel, Lynch Mines, Ky. That part of Kentucky is dry.

As a result Dominick Carmelita, the alleged sender, is being held by local federal authorities Wednesday.

And the whiskey was added to the 5,860 quarts that will be presented to the federal grand jury as evidences in similar cases.

## GRAND JURY PROBE OF BRIBERY IS STARTED

COLUMBUS.—W. E. Halley, senate clerk, and Dr. Russell Skeeles, Columbus, were the first witnesses called when the Franklin county grand jury Wednesday began an investigation of alleged bribery charges in the Ohio legislature.

These Cleveland witnesses are expected to testify during the day. Senator William Agnew, Representative E. J. Hopple, W. D. Gogwer, Howell Wright and Dr. Andrew G. Flower.

Indictments, if returned, will not be made public until the accused is taken into custody, it is expected.

## LABOR SHORTAGE IS FOUND HERE

Demand Exceeding Supply for  
All Classes, Declares Fed-  
eral Bureau Head

Indicative of a speedy return to normal business conditions, Lima with one possible exception is the first city in the state to report shortage in the supply for skilled and unskilled labor, according to C. E. Shelter, in charge of the federal employment service here.

The demand for all classes of help has increased more than 100 per cent during the last ten days," declared Shelter Thursday, "and embraces nearly everything from common labor to technical men. We received an order today for a number of boring mill operatives which we have been unable to fill. Constant calls for carpenters are filed and we could place 10 or 20 without trouble."

"There is also a brisk call for those desiring day work, both inside and out, which we have not been able to furnish," Shelter asserted. Agricultural work is attracting a larger number than ever before, it was said, and Allen county farmers are requested to file their needs for help which the office says it can promptly fill. This is a situation virtually without precedent, it was declared, and is significant of the tendency to return to or begin farm work on an intensive and scientific basis.

Shelter said it was practically impossible to meet the numerous requests for female help. Women

and girls are wanted for all kinds of employment including factory, office, domestic service, etc.

It is understood that one or two of the larger enterprises of Lima which have been operating with greatly reduced forces will resume shortly with a full complement of operatives running on normal schedule.

Altogether the industrial situation in Lima is constantly improving, and it is believed that an era of steady prosperity has already been inaugurated.

## SECOND PAN-AMERICAN CONFERENCE IS CALLED

WASHINGTON—President Wilson has issued a call for the convocation of the second pan-American financial conference, Assistant Secretary of the Treasury Rove announced before the Pan-American commercial conference here Thursday.

The United States government has sent invitations to the governments of all the American republics to send official representatives to Washington on January 12, 1920, Rove stated, to confer about the after-war financial situation in the Americas.

Each country has been requested to send its minister of finance and two other delegates.

## SEES HALT ON REDS.

AKRON—Secretary of Labor Wilson expressed his confidence in the overthrow of Bolshevism in America by the forces of the labor element, in an address here Wednesday night. He said labor was receiving the best wages and working under the best possible conditions in this country, as compared with the working conditions in the rest of the world.

## Perfect Health Is Yours If the Blood Is Kept Pure

Almost Every Human Ailment  
Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force. By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Every one needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle today, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

## WIFE IS BEATEN

Husband Fined For Attack—  
Neighbors Cause Arrest

Domestic troubles which have lasted over a period of five years, according to police, reached a climax in police court Thursday morning when John Stanick, 42, 412 Pennsylvania avenue, was fined \$25 for disorderly conduct for an alleged attack upon his wife.

The wife with a three year old child in her arms was scarcely able to drag herself before Judge Botkins of the criminal court to testify against her husband.

She alleged that she is now in fear of him and refuses to co-habit with him.

Neighbors testified that the attacks upon Mrs. Stanick were of almost nightly occurrence and last night filed charges against him which led to his arrest.

## GOVERNMENT CONTROL IS FAVORED BY TRAINMEN

COLUMBUS—The Brotherhood of Railroad Trainmen's triennial convention, which has been in session here since May 14, adjourned after adopting a resolution favoring Government ownership of railroads.

The resolution says in part: "The Brotherhood of Railroad Trainmen has had an opportunity to observe the operation of Government control of railways for a limited period, not sufficient, however, to show its advantage to the full and overcome prejudices against much operation, and it believes that such control and operation under normal conditions would result in a greater degree of efficiency, with resultant satisfaction to the nation as a whole, as well as to the advantage of railway employees."

Graham's is the leading ice cream.

## CAPES AND DOLMANS

to go at half price during  
Gregg's wonderful clean-  
up sale.

R. T. Gregg & Co.

## DAYLIGHT SAVING LAW MAY BE PERMANENT ONE

That the repeal of the daylight saving law does not find favor members of congress was emphasized Wednesday when the house rejected the order to the agricultural appropriation bill providing for the repeal of the measure. Unless new legislation is attempted the law appears to be a settled proposition. According to word from Washington, it is said that renewed efforts may be made to wipe the statute out when the agricultural bill reaches the senate.

The daylight plan is generally endorsed by commercial and industrial interests throughout the country, while it is opposed largely in the agricultural districts. The Lima Merchants Association is on record favoring the continued enforcement of the law. The Allen county Grange is against it, and plans are under way by the organization to petition congress to repeal the law.

CIGARET CAUSES FIRE  
Fire resulting from the dropping of a lighted cigarette thru a hole in the floor did only slight damage to the fruit store of F. C. Bonano, 228 1/2 South Main street Wednesday night. Central firemen extinguished the blaze.

VETERAN ENGINEER DEAD  
MARION—Eber A. Baker, 72 years old, oldest locomotive engineer of the Erie Railroad in point of service, died at his home here.

Insist on Graham's ice cream. Better than ever.

## THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A. Take GOLD MEDAL Hamlen Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work. Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Hamlen Oil Capsules. They are made of the pure, original, imported Hamlen Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.

## Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by operating the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have yellow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

## AS YOU LIKE IT

**THEY DIDN'T DO ANY REAL EATING, AT THAT.**

The following dispatch from Topeka appears in the Kansas City "Star." We wonder what the auditor would have thought if the gentlemen in question had tried to do some real eating in this village. When he wants figures that don't lie, we will tell him that there have been occasions when \$11.15 has failed to get us as far as the entrance.

"The Kansas state auditor is not prepared to say what an ordinary meal in New York ought to cost, but he has an idea that \$11.15 is too much for any one to spend on four meals in one day in New York city or any other city or town. Also \$8.50 is too much for three meals for any ordinary Kansan in New York. The auditor has just begun to receive the bills of the state officials who went to New York on special duties connected with the return of the Thirty-fifth division, and the men who made the trip are going to find large holes cut into the expense checks when they are received. The auditor announced today that he was not going to allow any such item as \$11.15 for four meals in one day for any Kansan anywhere, and that he was going to cut down all the big 'feed' bills of the officials."

A quiet little dispatch tells us that women in Paris are going without stockings. But we are a long, long way from Paris, so, why worry? Let the peace conference settle that.

## THE GUILLOTINE.

A grand old tool was the guillotine. When an ancient king got bad, He'd feel the axe on his old thorax. 'Twas a cheerful way they had. When the mob got sore, They would yell for gore And would take a list and fill it in. They would lop the knobs Of the royal snobs Who would wait their turns at the guillotine. Like a barber shop, "You're next, old top. On the big machine with its gay chop-chop." And the renegade queen Would lose her head In the grand old days of the guillotine.

Dear Roy: My idea of wasted energy is a landlord who lists a vacant store with a real estate office and then adds: "No saloon considered."—Wise Guy.

## Why The Delay?

GO ALL OVER THIS progressive little city and you can find nothing doing in the way of municipal work. The first thing that looks like work has started on the north end of Baxter street. Both the street repair and the street cleaning departments seem out of business.

IF MONEY IS THE CAUSE, well and good. No city administration can be blamed if it has no funds; if the delinquency is for any other reason then it is time things started. Many macadam streets need but slight repairs. Even west Elm street could again be put in fair condition by the use of a long drag. City Hall surely does hate to make repairs and the county commissioners have the same affliction.

## Encouraging Sign

FIGURES GIVEN yesterday by a prominent Lima banker showing savings accounts in local financial institutions are steadily growing is an encouraging sign. He made the statement that there is more money in savings in banks now than ever before in the city's history.

THE AMOUNT of money laid by in this way is one of the best indications to the city's stability. It shows a prosperous condition and augurs well for the future.

THE PEOPLE learned the lesson of thrift during the war and it is not being forgotten. They realize that money saved now with values extremely high will be nearly doubled in purchasing power when a complete readjustment comes about.

## Cheaper Meat

ACCORDING TO ONE of the leading Chicago packers meat prices are to take a tumble. This promise has been made before, but prices have refused to do the somersault act. At the same time sugar is to become scarce and to advance and butter remains firm.

GROCERY BILLS must be considered as a whole in relation to the 60c dollar and there will be little change until we have absorbed the inflated currency caused by the heavy expenditures of war. Until we as a nation have actually saved the billions we have spent political economy teaches there can be little decline in commodities.

MISS LIMA: "The trouble with Law is that it always conflicts with what you want to do."

## The Hobble Quits

JUST AS OUR FAIR misses and ultra-fashionable dames are beginning to learn how to shuffle along in hobbles like a Chinese waitress, comes a cable from Paris that it is all off. The hobble is not needed now that the war is over. It was brought back to save material and there is more material now than any one needs. The hobble quits just as we are becoming accustomed to its wiggle.

## Today's Health Hints

### NEARLY EVERYBODY'S COMPLAINT

For quite a spell now we have studiously avoided the subject of auto-intoxication, but several hundred inquiries from readers make it necessary to drag in the dear old subject again.

Auto-intoxication is an idea composed of 99.44 per cent fancy and faint traces of fact.

That's a downright disappointing admission for a doctor to make, and it will, no doubt, lay him open to grave accusations by many readers, not to mention the displeasure of colleagues who may be guilty of diagnosing auto-intoxication. The truth is always painful to some one. Time was when I uttered the truth without any compunction whatever, but I fear I am getting wishy-washy, because nowadays I actually hate to tell the truth without softening or toning it down some. However, candor still plays her famous role, and far be it from me to criticize her technique.

Had Professor Metchnikoff survived there isn't a doubt that he would have repudiated nearly all the views attributed to him today by aggressive merchants with alleged remedies for auto-intoxication to market. "eckin-off, for instance, never suggested that one germ or type of germ in the intestine fights or kills another germ or type of germs. He wrote rather about the influence of diet on the bac-

terial flora or fauna of the intestine. I say flora or fauna because I do not know whether germs are of the vegetable or animal kingdom, and neither does any one else, so I am entitled to refer to the bugs in the bowel without any vulgarity.

Certain foods encourage the active growth and multiplication in the intestine of a type of bacteria called *Bacilli acidophylus*, which particular type of germs renders the field unfavorable for the growth and multiplication of other types, such as the *Bacillus coli communis*, which are the agents of putrefactive decomposition. Among the foods which tend to keep the *Bacillus acidophylus* predominant the sugar of milk (lactose) is perhaps the best. Ordinary milk, as well as buttermilk, contains this wholesome lactose.

The protein (casein) of milk is much less likely to undergo putrefactive decomposition in the bowel than is the protein of meat. And the proteins in such as peas, beans, peanuts and other nuts, are also unlike meat protein in that they do not encourage the growth of the putrefactive bacteria in the intestine.

The sugar present in many vegetables (dextrin) favors the development of the *Bacillus acidophylus* type about as much as milk sugar does.

Regardless of the amount of putrefaction occurring in the intestine, let it be remembered that we have precious little actual proof that any supposed poisons thereby produced are absorbed into the blood, except in cases of complete obstruction of the bowel.

### QUESTIONS AND ANSWERS

**Light Case of Syphilis**  
Is a light case of syphilis curable? If a person so affected immediately places himself under medical treatment, and presently shows no outward sign of the disease is he cured? May he then marry? Would any children he likely to inherit the disease? Could he be determined by a physical examination whether such a person is cured? (Y. M. S.)

**ANSWER**—By persistent medical treatment taken over a period of two years (though not necessarily constantly), practically every case of syphilis is arrested. I do not say cured. I do not know that any case of syphilis is ever absolutely cured. Outward sign after a short course of treatment. The person may marry only when a physician considers marriage safe. Children would be almost certain to inherit the disease if marriage takes place while the person still has active syphilis, irrespective of the "outward signs." A thorough examination plus several Wasserman blood tests, would show whether or not syphilis has been arrested.

**Exercise for Heart Disease**  
I understand that certain exercises have been found very beneficial for cases of heart disease. In the army and would be grateful if you can describe the exercises I have pain in the heart region daily, which physicians declare is the result of overwork and too much smoking. I hope ultimately to rid myself of the smoking habit.

but meanwhile I am anxious to try the curative exercises. (C. C. V.)  
**ANSWER**—Graduated exercises, adapted carefully to the individual case, are one of the best remedies for developing the reserve power of a damaged heart. There is no special exercise used in the army or elsewhere. It is up to your personal medical adviser to determine whether exercise is required, and if so, how much and what kind of exercise, also it is his place to supervise this treatment throughout. Habitual smoking often produces a condition indistinguishable from incipient pectoris, and from what you say it would seem high time for you to quit fooling with tobacco.

## SUCH IS LIFE

Another college professor has come and started another campaign against slang.

I'll say he'll have a peach of a time getting anywhere with his campaign.

**BECAUSE—**  
(1) We've got all the slang we had before the war.

(2) More new slang was invented in camps and on ships.

(3) Everybody learned everybody else's own pet slang.

Why, just the other minute a returned gey was talking.

And spilled more slang in six seconds than a college professor could analyze in a dozen years.

The steward suspected of holding out "chow" at mess time is a "belly robber."

Bread is "punk," sugar is "sand," salt is "sea dust." Butter is "axle grease." Eggs are "gas bombs." Tapoca is "snake eyes." Salmon is "submarine shark."

Peddlers are "bumboats."

The guy who spends too much time in his hammock is a "bunk lizard."

Canned beef is "Canned Willie."

If a gob can't recall the name of a thing he calls it a "gadget" and let's it go at that.

Fellows who wear stiff white collars are "harbor gaskets."

Coins are called "iron men," "shekels," "washers," "clackers," "jack," "armor plate," "holy stones," "erly bait," "armor plate," "holy stones," "joy berries," "kopex," "joy berries," "palm grease," "lib-mazuma."

"Poggy bait" is the pet name for candy.

When your gob friend tells you he feels "jake" you know he's feeling fine.

Yes, that college prof. has a fat chance putting the skids under slang, hasn't he?

**While Those Who Want to Reform Tobacco Fiends May Find Some Kind of an Argument in the Following:**

Mrs. Perlisse Ann Keller of Shelbyville, Ill., used tobacco daily. A little clay pipe was her most constant companion. Indeed she had forgotten more about tobacco than most men ever learn. She passed away the other day, and some folk thought her death was caused by too much smoking, as she was only 106 years of age. They think she might have lived longer had she not smoked, pointing to the many non-smokers who don't live that long.

## CONFESSIONS of an EVERY DAY WIFE

BY IDAH M'GLONE GIBSON

### WOMEN, TOO, ARE TEMPTED

"No, I do not mean that I love George Mordyke any more," said Ellene as I asked the question, "but, Margot, I have a great feeling—a great tenderness for the love I once bore him. Even the love I am giving to Major Gordon lack the freshness and youthful burst of the love I must still hold in my memory. It is a terrible thing, Margot, to slay Love! I have paid so dearly for it all and now it is dead."

"I wish we would pay a little more attention to the law of compensation, Ellene. Just as surely as this old world turns around, just so surely must we pay or be paid for everything we have—everything we are. And the tragedy is that we pay most for our mistakes. You, my dear Ellene gave your first great, fragrant gift of a woman's love to the wrong man—a man not worthy of it. Foolish children that we are, we are always thinking we can evade that payment."

"I sometimes think if we could only exclude the idea of mercy from our philosophy the world would be much better. Mercy! Mercy! It is the cry of the coward."

"Goodness, Margot, do you know how blood-thirsty that sounds?"

"In reality it is not blood-thirsty at all, for strict justice is mercy most divine."

"If however, we go on expounding pet theories at this rate we will never send the telegram," I reminded.

"Do you think that would be the best thing to do?" asked Ellene.

"Sure I do. I wonder why we did not think of that before. He will be completely mystified."

"Come on, we will go for Mrs. Charlton."

We found her ready and quickly drove out to the camp where we found the Major rather impatiently waiting.

I could see that Mrs. Charlton was so obsessed with the idea of the Major's growing interest in me that she paid very little attention to Ellene.

After luncheon, Theo came out and before we all left for home I could see that Mrs. Charlton had almost succeeded in planting a little bit of suspicion in his mind.

I was quite sure she never could have done this if I had not told Theo the day before that "Some time I might turn the corner." (Will I ever do so? I wonder.)

I did not think much about it, however, because I was greatly worried about Ellene's affairs. I finally made up my mind that I would meet the gentleman who was making her miserable, myself, and simply tell him the whole story. After that, surely, if he had one spark of manhood he would give me the letters.

Ellene, too, was all upset and consequently she did not say much to anyone and she hardly looked at the Major.

I perfectly understood this. I knew she was satisfied that it would have been better if she had not come out for the mere sake of being near the man she loved. She had given herself an entire new set of tortures. She wanted to be near him, to hear his voice, to touch his hand, and yet she felt that until things were settled with her old sweetheart, she could not encourage the Major.

The Major, feeling her apparent coldness and not knowing just how

to act under the circumstances, instinctively turned to me as the only person present who understood the situation.

"Come, Mrs. Margot," he said pointedly. "I want to show you an innovation we have instituted in the hostess house."

"I'll come if Mrs. Charlton feels up to a walk over," I said, although I knew that the person he wanted to leave behind most was Mrs. Charlton.

"I am feeling all right, and you and I, Mr. Theo," she answered (putting a slight emphasis on her use of Theo's given in the same way that the Major had used mine). "will make a foursome of the walk over, will we not?"

"Won't you come, Miss Symone?" asked the Major in such a disappointed voice that anyone who was not deaf would have known that he wanted me alone, without even Mrs. Charlton or my husband.

Of course I knew he wanted to talk about Ellene, but none of the others knew it, and Mrs. Charlton's little remark made Theo look at me as though he was seeing someone that he has not known before.

I wonder why it is that most men seem quite as surprised as hurt when they have the first twinge of jealousy of their wives!

It has always been a mystery that I have been unable to fathom just how a man's mind can hold at the same time two distinct opinions of the woman he has married. I have also wondered how he could love two women at the same time.

Before he marries he thinks she is the most wonderful girl in the whole world and he rather pities all his masculine friends for the inestimable prize he has taken away from them.

But as soon as he is married some other little cell opens up in his mind which tells him that no other man

would really admire the girl he has married enough to flirt with her. I had put a new thought in Theo's head by telling him there was always a temptation just around the corner for wives as well as for husbands.

# Woman and Her Work

SOCIETY AND THE CLUBS  
BY MARGARET SIMPSON

Mrs. S. S. Sealts, of west Market street, was the hostess to a number of friends with bridge at her home Wednesday afternoon. The living room in which the tables were laid were resplendent with baskets of pink roses and peonies, tied with tulle. At the conclusion of the game Mrs. Alfred Wemmer held high score. She was presented with a dainty gift. At 5 o'clock a delicious tea was served.

Guests included: Mrs. E. M. Gooding, Mrs. W. L. Parmenter, Misses Anna and Lillian Taylor, Mrs. Henry Deisel, Sr., Mrs. Alfred Wemmer, Mrs. Henry Wemmer, Mrs. Frank Kommlinsk, Mrs. John Galvin, Mrs. H. L. Brechenridge, Mrs. Clint Sealts, Mrs. Harry Workman, Mrs. J. B. Poling, Mrs. Oliver Steiner, Mrs. Frank Moke, Mrs. Frank W. H. Harry Wright, Mrs. Hamilton, Mrs. Frank Sealts, Mrs. Nelson Shook and Mrs. Joe Cowan.

The S. C. D. Club, was delightfully entertained Wednesday afternoon at the home of Mrs. Earl Snyder, of the Keller apartments. Euchre was played through the afternoon and high score was held by Mrs. Baumgardner. At the tea hour a two course luncheon was served by the hostess.

Those enjoying the hospitality of Mrs. Snyder were: Mrs. A. M. Finckh, Mrs. Max Falk, Sr., Mrs. Victor Cardosi, Mrs. W. A. Wagoner, Mrs. J. J. Malloy, Mrs. Dan Simons, Mrs. F. X. Seiber, Mrs. A. DeCurtin, Mrs. J. Cashman, Mrs. P. F. Wells, Mrs. H. J. Ellerman, Mrs. B. S. Langan, Mrs. Frank Hagerman and Mrs. Baumgardner.

The next meeting of the club will be held in two weeks at the home of Mrs. A. M. Finckh, of south Atlantic avenue.

The first Woman's Day of this season at the Shawnee Country club was a great success. It is the usual custom of the club to set aside Thursday of each week for the entertainment of the women members of the club. About 50 partook of the delicious luncheon served at 1 o'clock. Many played golf, while others sat on the veranda chatting and doing needlework.

Mrs. A. L. Wagner, has returned to her home in Detroit, Mich., after spending the past month with her mother, Mrs. Scully, of north Main street.

Mrs. H. E. Hawk, of Chicago, Ill., and her sister, Mrs. Clyde Harsh of Wapakoneta, are spending several days here.

The Stella Rebecas will meet Friday evening at the Solar Lodge hall, corner of Main and Kibby streets. There will be election of officers and initiation.

The logical table drink for health  
— is —  
**INSTANT POSTUM**  
And the flavor satisfies.

## Shoes For Baby

Our shoes for Baby are all made by Experts who don't know anything else but Shoe building for Babykins.

They have devoted years and years in studying the wants of the Little Foot—designing and shaping models, lasts and patterns—which will not interfere with, nor prevent the natural development of the foot.

THIS means more beauty and more PERFECTLY SHAPED feet for YOUR BABY.

Besides—Our Children in charge of the fitting of the Children's Shoes fully understand just what the Little Feet require and how they should be fitted.

All sizes—all widths—all shapes—and a Price Range from \$1.00 a pair up.

## NEW SHAWLS QUAIN AS GRANDMOTHER'S

By ELOISE

If our soldier boys are tired of seeing our girls in uniforms they have a pleasant surprise in store for them when the summer days arrive. Dame fashion has decided that our girls shall be adorned with the ruffles and lace and fully furrowed that were in vogue many years ago and if it were not for the carmine lips and cheeks the 1919 summer girl would be a very good copy of her quaint grandmother.

The summer girl, instead of baring the severe and austere type clad in a sport skirt and tailored shirt from morning till evening no matter what the occasion or what the day, will this year be a demure picture of young girl clad in flowered volles and soft pique with ruffles and ribbons for trimming.

Shawls are being revived this year and they are a fitting accessory for the new frocks. They are to some extent, replacing the long favored sweater coat. Here is one of the newest which looks as if it might have stepped from a storybook. Soft pink brown and cream are the colors and they blend beautifully in the silken floss. Deep knotted fringe of the cream color is left on either end.

Born to Mr. and Mrs. Charles B. Federman, of Springfield, Ill., a son, Sunday, June 1st. Mr. Federman is the daughter of Mr. and Mrs. Al Block, of 132 south Collett street.

Mr. and Mrs. S. O. Boyer, and son, Frank H., Mrs. Tessie Phillips, of Honolulu, Mrs. Nina Hilbrant, of Argentina, Ill. and Mrs. W. H. Boyer, of Botkins, Ill. and Mrs. W. F. Boyer, are guests of Mr. and Mrs. C. F. Sinclair, of 1114 west North street.

Mrs. Harold Moore and little daughter Shirley, have returned to their home in Terrace Court, after spending several days with Mr. and Mrs. Glen Stea in Wapakoneta and relatives in Coldwater.

Miss May Zimmerman, of St. Marys, is the guest of friends and relatives in Lima for a fortnight. Mrs. Edmund Donnell, of 206 west Market street, is the guest of her mother, Mrs. W. H. Cave in Van Wert.

## SOCIETY AND THE CLUBS

**SOCIAL CALENDAR. THURSDAY EVENING.**  
"Homeland," pageant, Trinity church.  
**FRIDAY.**  
Delta Alpha class, Mrs. Agnes Wingo's, evening.  
Ladies Aid of the First Baptist church, Mrs. J. S. Herring, afternoon.  
C. W. B. M. of the Central Church of Christ, afternoon.  
Good Cheer Class of the Market Street Presbyterian church, Mrs. Williams, afternoon.  
T. and F. club, 6 o'clock dinner, Mr. and Mrs. O. B. Selfridge, Mr. and Mrs. W. L. Mackenzie.

The subscription dance given at the Shawnee Country club under the management of Misses Marian Sullivan and Hazel Wright, was a great success. Palms and cut flowers were in evidence everywhere and on the veranda sandwiches and punch were served through the evening. The attractive living room was cleared for dancing.

Those enjoying the evening were: Dr. and Mrs. Wagoner, Mr. and Mrs. W. H. King, Mr. and Mrs. Holmes Mackenzie, Mrs. Frank Mitchell, Mrs. Frank O'Brien, of Chicago; Mrs. Chester Cable, Mr. and Mrs. Fred Gooding, Mr. and Mrs. Mark Kotler, Mr. and Mrs. George MacDonell, Misses Gertrude Finley, Marian Dunne, Marian Sullivan, Rowen Kahle, Helen Basinger, Miss Ferrall, of Muskogee, Okla., and Hazel Wright, Messrs. Calvin and Bruce Selfridge, Franklin Cover, Joe Gooding and Dwight Bailey.

Wednesday evening at 8 o'clock, Miss Leona Boltz, daughter of Mrs. Sarah Boltz, of 440 Albert street, became the bride of Albert Morton. The ceremony, which was the single ring service, was performed at the home of Rev. W. C. Spayde, 225 south McDonald street, pastor of the Bethany Lutheran church. They were attended by Claud Waltz and Alma Peters.

After a short wedding trip the couple will return to Lima where they will make their home with the bride's mother. Mr. Morton is an employee at the B & O freight house.

An all day meeting of the Zion Lutheran society was held Wednesday at the home of Mrs. F. H. Klingler, of the Marion Road. At 1 o'clock a catered luncheon was served on the lawn. Twenty-three members responded to roll call and there were two guests, Miss Lillie Klein, and Mrs. B. Schmidt. After the regular business session in the afternoon the time was spent with games, contests and a general good time. Mrs. Milton Michling gave several clever readings.

The July meeting will be held in the basement of the church.

Mr. and Mrs. W. L. Mackenzie, of west Market street, are entertaining as their guests the first of the coming week, Mr. and Mrs. R. S. Wood, of Los Angeles. Mr. and Mrs. Wood are returning to Los Angeles from their wedding trip through the western states. The couple were married in Los Angeles May 6th. Mrs. Wood was formerly Miss Florence Benedict, a professional musician and one of the oldest and most prominent families of Los Angeles. Mr. Wood is the grandson of Isaac Satterthwaite.

Miss Marcella Pflum, who has been a violin entertainer at Newport News, Va., is spending several weeks here with Miss Clifford Cook and friends, while enroute for the home of her parents, Mr. and Mrs. Pflum, former residents of this city, now of Los Angeles, Cal. Mrs. Pflum, has been the guest of friends here for some time and will accompany her daughter to California.

Mrs. Charles Mallory, of 765 south Broadway avenue, entertained the Ladies Aid of the Olivet Presbyterian church at her home Wednesday evening. After a short business session the evening was spent in a social way. Refreshments were served at a late hour. Miss Minnie Smith, of St. Marys, was the only guest.

The following Wapakoneta people spent Wednesday here: Mrs. W. T. Shaffer, Miss Virginia Blair, Mrs. Otto Guese, Mrs. A. L. Blue, Mrs. W. F. McGinnis, Mrs. M. McClintock, Mrs. Henry Castle, Mrs. C. D. Fisher, and daughter Marian, Mrs. Raymond Winemiller, and Mrs. Henry Gebb, and son Lamar.

The pageant "The Homeland," which was such a great success when given at the Trinity church several weeks ago, will be repeated Thursday evening for the benefit of the Queen Esther Circle and Junior Standard Bearers.

The Ladies Aid society of the First Baptist church, will meet at the home of Mrs. J. S. Herring, of 704 Hazel avenue. Mrs. W. S. Fields, and Mrs. Dunifan will act as assistant hostesses. This being the final meeting of the year it will be in the form of a picnic.

Mrs. Clement Osmon and little son, Robert, of 821 south Main street, are guests of Mrs. Osmon's parents, Mr. and Mrs. Levi Waltz, in Wapakoneta.

Miss Adella Vorndoll, of New Bremen, was a Wednesday visitor in this city.

Mrs. J. W. Sampson, of St. Marys, is the guest of Mrs. L. P. Frysinger, of 323 Maple avenue.

Mrs. S. D. Truesdale has returned to her home in Delphos, after several weeks stay in Delphos.

## Children Cry FOR FLETCHER'S CASTORIA

The Woman's Foreign Missionary society of the Trinity church, met Wednesday afternoon in the church parlors. Mrs. Robert Platte, Mrs. F. Blazant, Mrs. Mary Ashton, and Miss Odette Lutz were hostesses of the afternoon. Mrs. D. Klinginger and Mrs. Otis McBride acted as hostesses. A. E. Courson was in charge of the music. The lesson the third decade of the Woman's Home Missionary society. Justice was presented in an interesting manner by Mrs. C. R. Vothke. The social hour was in charge of Mrs. DeKalb and Mrs. N. Christ.

The many friends of Leon Miller, son of Mr. and Mrs. C. C. Miller, formerly residents of this city, were pleased to learn of the announcement of his engagement to Miss Helen Friend, of Brookton, Okla. The announcement was made known at a Patriotic Tea given on Monday night, given in Brookton by the bride-elect's mother.

Miss Friend has been in the service of the government as a trained nurse at Camp Devens. Mr. Miller has been a traveling explosives inspector at the eastern camps.

A very informal but delightful party was given at the Lima Club Wednesday evening by Mr. and Mrs. Ralph Alesin, commissionaire. Mr. Austin's brother, Paul Alesin, of Toledo, who has recently returned from overseas service.

About 25 couples enjoyed the evening of dancing, the music being furnished by a jazz orchestra. Paul Alesin, of Toledo, was the only out of town guest. At 11 o'clock a delicious buffet luncheon was served.

Another informal entertainment will be given at the Austin home in the Hughes Terrace, Thursday evening.

Mrs. Frank O'Brien, of Chicago, who is the guest of friends here, entertained a few friends with a dinner at the Shawnee Country club Wednesday evening. Covers were laid for Mr. and Mrs. Wallace King and Mrs. Holmes Mackenzie, Mrs. Frank Mitchell and the hostess.

Mrs. Augusta Miller, Mrs. Lucia Alder and Mrs. Jennie Miller of Delphos, spent Tuesday in this city.

## HER HEALTH WAS POOR UNTIL SHE BUILT UP BLOOD

Binghamton Woman Tells How Dr. Williams' Pink Pills Corrected Her Nervous Indigestion

Pain is a warning signal, but you cannot always determine the nature of the illness by the location of the pain. It is often supposed that stomach distress is an indication of serious organic trouble. Palpitation of the heart often causes great anxiety. As a matter of fact stomach distress and palpitation of the heart are very common manifestations of a condition of weak blood. Once the blood becomes rich enough to carry nourishment to all parts of the body the symptoms that cause worry disappear.

The experience of Mrs. Florence Brooker, of No. 27 Jackson street, Binghamton, N. Y., will interest those who suffer from indigestion and other symptoms of thin blood. She says:

"My blood was so poor that I suffered frequently from severe headaches which affected my eyes so that I couldn't see to read. The headaches were of the dull, throbbing kind. I had heart flutterings and it seemed at times as though it skipped a beat and its behavior caused me a lot of worry. My stomach was greatly distressed after eating and in time I didn't care whether I ate or not because I knew I would have to pay in pain for every bite I took. I lost weight steadily."

"One day my sister recommended Dr. Williams' Pink Pills to me as she had taken them with great benefit. A short time after I began the treatment there was a noticeable improvement and I took the remedy until my stomach trouble was ended and I could eat heartily again. I no longer have headaches and my heart beats naturally and there are no disturbing flutterings. It is a pleasure to do my work now. I have told many of my friends about Dr. Williams' Pink Pills."

Your own druggist can supply you with Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50 by the Dr. Williams' Medicine Co., Schenectady, N. Y. Write for the free booklet on nervous disorders and diet.

## PESKY BED BUGS

Doctors declare that bedbugs and other vermin are the most to be feared means of spreading such diseases as consumption, spinal meningitis and other infectious troubles. There is no disgrace in getting bedbugs in your home, because that can be avoided. But it is a disgrace to permit them to remain and thrive when it is so easy to get rid of them with the new chemical compound, P. D. Q., which actually puts an end to these pesky bugs.

**A MILLION BEDBUGS**  
A 35-cent package of this golden chemical will make a quart of mixture that is so deadly to bedbugs that it would kill a million of them were as big as your hand many together. If they are so numerous that you cannot see them, just as well. And not only the live ones, but the future generations as well, because once it kills the eggs they are gone.

**CUT THIS OUT**  
Your druggist has P. D. Q. (Pesty Devil's Quinine) and will be glad to furnish it for 35 cents. One 35-cent package makes a quart of the mixture, and is equal to a barrel of old-fashioned bug-killer. Some druggists may try to sell you something else. Don't accept a substitute. If your druggist hasn't P. D. Q., send us his name and we will send you a package postpaid to your address.

**WILL NOT DAMAGE GOODS**  
P. D. Q. will not injure delicate fabrics, clothing, carpets, furniture, bedbugs, wall paper or woodwork. In fact, it is often used to destroy rats and mice.

## Household Hints

**MENU HINT**  
Breakfast  
Stewed Rhubarb  
French Toast  
Coffee  
Luncheon  
Salmon Salad  
Rhubarb Pie  
Cocoa  
Dinner  
Homemade Relish  
Potpie  
Vermont Style  
Poiled Rice  
Lipsa Beans  
Cup Custards  
Coffet

## RECIPES YOU'LL WANT.

**Potpie, Vermont Style**—Cut the remains of a cold roast of veal into small pieces and place in a saucepan, and add two onions cut in quarters, one carrot cut in dice, and sufficient boiling water to barely cover. Cook gently for thirty-five minutes and then thicken the gravy with flour and turn into baking dish and cover with plain pastry. Bake in a moderate oven for forty-five minutes. When preparing the crust for the top of the pie prepare sufficient pastry to allow the making of four-inch squares. Bake and then when ready to serve the pie, lay the squares of baking pastry on the plate then dish the potpie on top of the crust. Garnish with finely chopped parsley.

**Pineapple Custard**—Beat the yolks of five eggs stiff and add to them one-half cup of sugar and a can of grated Hawaiian pineapple. Have ready either one good sized mold with plain sides, wet with cold water or several small timbale cups, and fill with the pineapple mixture. Set in a pan of warm water, cover, put in the open and bake steadily but not too fast until the custard is set. Be careful that it cooks only to firmness and not long enough for the custard to break. Set aside until cold, turn out on a flat dish and surround with whipped cream.

**Grapefruit Cocktail**—The juice of two small grapefruit will serve four or five persons. Ream out the juice, using an orange reamer. Strain and then stand on ice to chill. When ready to serve add four maraschino cherries cut into bits, four tablespoons of the liquid from maraschino cherry bottle, one cup of finely chopped ice. Shake to blend and then serve in cocktail glasses.

**Bran Cookies**—This is a recipe for hard times, two heaping pints of bran, one egg, one pint of brown sugar, one pint of sour milk, two cupsful of flour, two tablespoonsful of drippings or butter, one heaping teaspoonful of soda, one heaping teaspoonful of baking powder, one-half cup of coconut, one-half cup nut meats ground or broken (almonds preferred).

Cream butter, sugar and egg stir in all other ingredients except flour and baking powder, which should be sifted together and added last. Drop by spoonful two inches apart.

## WATER COLOR EXHIBIT

**ECONOMY ART STORE**

The HALLMARK Store

**Heekin's**  
PURE FOOD PRODUCTS

THE fruit may be rich and sweet, the frosting splendid—but to make a really acceptable shortcake the texture must be light and fine. Use Heekin's and it will be. A little too much doesn't hurt; not quite enough won't spoil the cake.

THE HECKIN CO.  
CINCINNATI

in pan, and bake in a moderate oven. This recipe will make six and one-half dozen.

**Pineapple and Marshmallow Salad**—One can or one fresh pineapple. Cut in small pieces. With sharp shears cut one pound marshmallows in small pieces. Mix all together.

**Dressing**—One well beaten egg, one tablespoonful flour, one tablespoonful sugar, one-half teaspoon salt, one-half cup of vinegar or the juice of one lemon. Boil this until it thickens, then let it cool. Stir into this one-half cup of rich milk or cream.

Pour as much of this dressing as will mix well, over the pineapple and marshmallows, beating well. Let this stand at least an hour before serving. This is excellent to serve with salted waters.

Can't make it fast enough. Graham's ice cream.

## ROTARY DELEGATES WILL LEAVE FOR BIG MEETING

Five delegates representing the Lima Rotary club will leave next Sunday for Salt Lake City, Utah, to attend the annual international convention of Rotary clubs of the world. The delegates are N. L. Michael, C. L. Ackerman, George E. Bayly, Mack Ackerschul and Sam M. Williams. The convention opens Wednesday June 11, and will last for several days. The Lima delegates will join others en route.

## The Big Chance

To Save on a New Dress

Friday and Saturday we will have in our Lima store all the dresses from the stores we operate in other cities to add to our own stock.

Hundreds of dresses and all at special prices for those two days.

Silk Dresses, Crepe Dresses, Voile Dresses, Georgette Dresses, Dimity Dresses, Gingham Dresses, every size—every color, every price from \$3.00 to \$50.00 and every price a special price.

FRIDAY AND SATURDAY ONLY  
GEO. L. NEWSON & CO.  
PUBLIC SQUARE.

## La-May Face Powder Is Harmless to the Most Delicate Skin

Now you can use a pure face powder that is guaranteed not to injure the most delicate baby skin. It will not cause enlarged pores, blackheads and irritations. And it really stays on the face better than any other face powder. It does not contain white lead or starch or rice powder. (Poudre de Riz) to make it stick. White lead poisons the skin and rice powder turns into a gritty paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. Because it is pure and because it stays on so long, it is pure and because it stays on so long, it is pure.

## When a Girl Marries

By ANN LISLE

"Friendship like this—Jove, it makes life worth living," exclaimed Terry when he found that Jim and I had not motored back to the city in Anthony Norreya's car, but had remained at Greyfriars to see him through his strange wedding evening alone.

Jim seized Terry's hand and wrung it. "All his sincere affection and admiration for Terry were coming to the surface again. As he answered, he sent me a glance that was at once shamefaced and pleading.

"... old chap, there isn't a man in the world I'd do more for than you—if I knew how. There isn't another chap I'd trust like you—no matter what you did, no matter whether I got you or not."

"So that's how it is," said Terry the next day. "Well, Jimmie, old fellow, I wouldn't ask a better matter. And you know how the little Misses has stood by. Betty might have cried about it a bit—if it hadn't been her wedding day."

"The Doctor said he'd let you have dinner with Betty," I ventured, trying hard to adjust myself to the situation and not let any feeling of bitterness toward Jim linger—or show.

But Jim was generous about that, too.

"Here's my big idea, Terry—you ride down to the inn with Anne and me now. That'll kill time for you until they let you into Paradise again. Then, when they put you out again, you motor back to the inn and we'll be waiting. I'll get a cribbage board, in case you can't sleep, and want to make a night of it."

Terry chuckled.

"Cribbage? That's the supreme sacrifice he's offering me, sister Anne. Back in the old days in France, Jimmie would have a go at the magazines of the 1910

ably in Tony's car," said Terry contentedly. "Of course, it makes me feel pretty good to think I can at least be in the next house to Mrs. Winston. Sounds pretty good, doesn't it, Mrs. Winston?"

"It sure does! And I'm thinking Betty Winston will be a much happier woman than ever Betty Bryce was," replied Jim.

And then I knew that I'd just howl—no less—in a minute.

Betty's arm! Dear, vain, adorable Betty's lame arm, that never was going to get well! My ugly secret had me by the throat. So mumbling something about packing my bag, I rushed from the room.

I had just cleared my possessions from the bureau of the guest room and had stowed them back in my bag when Miss Moss came to tell me that Betty was asking for me and I might have five minutes with her. So I gave the little nurse my bag to carry out to the waiting room, adjusted my hat for travel and then hurried to Betty.

The bride was white and pale and tired looking, lines of pain etched themselves across her face, but her eyes were eager, avid for happiness.

"You dear, to plan to stay with Terry! I know," she said. "This isn't much of a honeymoon and you were going to help Terry through—sort of keep him from realizing how—rash he has been."

"Rash, Betty!" I replied. "After all the months he's been trying to catch up with you and make you listen? I guess he's almost thankful to see you where you can't run away."

"Nice comforter!" murmured Betty. "But we both know how sickness annoys men. Oh, Anne dear, I do so want to be up and about and doing things for Terry instead of being helpless and a burden. I want my love to bring happiness."

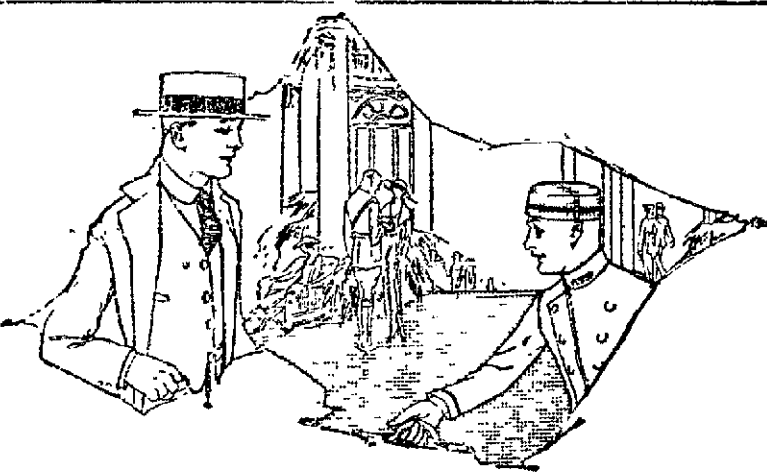

"Don't you know that Terry'd be happy to have you if both your arms and a few legs and eyes and ears were in slings?" I answered with a smile that brought quick response from Betty.

"Yes, he's like that—bless him! And anyway, it isn't as if I were a down-and-out for life. It isn't as if I wouldn't be all right again in a month."

Betty spoke with such assurance that I had to turn away to hide the shimmer in my eyes. She sensed something amiss, and caught my hand in her uninjured left one.

"You haven't told me about yourself, Anne—not a word. But I feel something in the air. Are things right with you?"

(To Be Continued.)

### The mark of a well-dressed man

Discrimination and taste are what really mark the well-dressed man.

His watch chain may not be expensive. But like his clothes it is well-chosen.

Men of discrimination in dress are wearing Simmons Watch Chains. Their exquisite designs add the finishing touch of good taste to well-selected clothes. Their wearing qualities are unsurpassed.

Ask to see Simmons Chains at your jeweler's. You can depend on all the styles. The assortment is varied enough to suit your fancy. The prices are moderate.

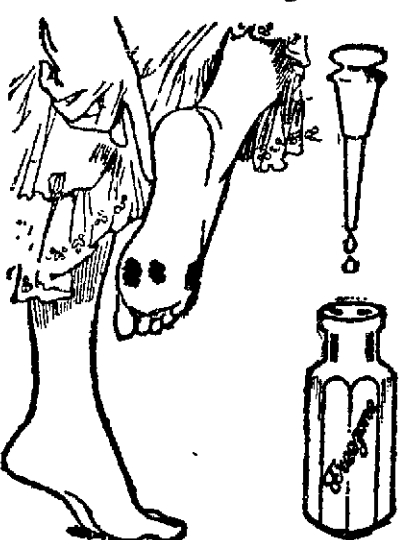

**SIMMONS**  
Watch Chains

For 45 years Simmons jewelry has stood for correct style, superb workmanship and quality material.

TRADE MARK

### "CALLUS CORNS" LIFT RIGHT OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

The more you eat the more you want. Graham's ice cream.

## WARNING To Gas Users

You must SAVE Natural Gas this coming Winter. The Natural Gas outlook in the Medina field is bad. The Medina Gas & Fuel Company, who furnish us gas, have just completed their eleventh dry well. Buy your HEATING FUEL NOW, before it is too late. If gas is short this Winter, we will not furnish gas for any purpose except cooking, hot water heaters, bathroom heaters and small room heaters. Think about it. It is SERIOUS. Our policy is SERVICE FIRST. We believe you should know the FACTS. It is hard for the Gas Company to tell gas consumers to get other fuel for heating. That is the best end of the gas business. Our policy is to be square with you, even though it hurts.

THE LIMA NATURAL GAS COMPANY.

This Is the Tire We Will Build. See the Word Ohio

## A Good Investment!

### Now Means Independence in the Future

The men who make money are the men who invest in live and growing industrial companies. Here are Ten Reasons why you should invest in

### The Ohio State Rubber Tire Co., Port Clinton Ohio

- 1 Because other Ohio rubber stock has brought its holders millions of dollars in a few years. The facts are staggering—almost beyond belief. But they are TRUE.
- 2 We have a real plant with real buildings, large enough space to make a thousand tires per day. We have plenty of ground for expansion. We have one mile of concrete foundation already in for future buildings.
- 3 We have bought and contracted for all our machinery, which we are now installing. Soon we will be in operation—making profits for our stockholders.
- 4 The location is unexcelled on account of the unlimited water supply, which is one of the largest assets in the rubber tire industry. Railroad and lake shipping facilities of the very best. Right in the middle of the automobile industry of the United States—between Cleveland, Toledo and Detroit, where eighty per cent of automobiles are manufactured in the United States.
- 5 We are near Akron — the center of the tire industry, which is also noted for its manufacture of rubber machinery, where we have purchased most all of our machinery.
- 6 There will be a much larger demand from now on for tires in this country as well as in Europe. Europe is destitute of tires and they have come to this country to secure their supplies.
- 7 The Ohio State Rubber Tire Company has secured one of the best executive and technical organizations which can be found in the Rubber Industry for its working staff.
- 8 Those in position to know say that the tire industry in spite of its enormous size is still in its infancy. You don't have to guess about rubber. You have only to open your eyes and see the number of cars from day to day passing by. They ALL need tires.
- 9 A big field for tires that is just beginning to give evidence of its vastness is the motor transport field. Thousands upon thousands of trucks will be used in the next few years, transporting goods from city to city, competing with the railroads and also lessening the stress that has been placed upon them, especially in the freight department. The railroads also have utilized a perfect motor service for intra-terminal transfer of package freight which will require numerous tires.
- 10 A VERY STRONG REASON  
We are incorporated under the laws of the State of Ohio, under the supervision of the Commission of the Department of Securities of the State of Ohio, which has certified the sale of our seven per cent Preferred stock. Our Stock is non-assessable and a liberal bonus of Common Stock is given with each purchase of Preferred Stock, but for a short time only.

We invite the closest investigation.

## SPORT SNAP : SHOTS :

In the excitement caused by the sensational hitting and fielding of Ross Young, the timely swatting of Larry Doyle and the generally fine work of the Giant team as a whole, the results obtained by at least one member of the cast have been somewhat overlooked, says a New York critic.

The player in question is Arthur Fletcher. It was eleven long years ago that Fletcher first eased his way into a major league game, but he is still very much in the running. There are more flashy shortstops in the game than the Collinsville veteran, but John McGraw would hardly consider passing Fletcher along in exchange for any of them.

Injuries sustained on the eve of the opening of the championship season slowed Fletcher up in the first few days of play and finally forced him to fall out of line and allow Eddie Sicking and Al Reid to take turns at plugging the gap between second and third bases. It looked like he would remain on the bench, however, and he missed only six games. He was not in the best of shape when he reported for duty after his brief lay-off, and even now his back, wrenched in an exhibition game in mid-April, bothers him when he makes an unusually strenuous play, yet his physical conditions are only faintly reflected in his work.

Since resuming his place in the lineup Fletcher has peppered the pellet at a .263 clip. This average is not a particularly remarkable one, yet when the details of his batting are scanned it will be found that his hits have been of a most timely nature.

For instance, in the opening game of the series with the Cubs it was a single by Fletcher, made off Grover Cleveland Alexander in the sixth inning, that chased the winning run over the plate. Two days later he launched the third inning attack on Douglas that netted the Giants five runs with a double to left. An inning later "Shufflin' Phil" was knocked out of the box. On the following day he wielded a mean stick in the course of the run making that brought about the defeat of Lefty, and in a recent game he reached Slim Sallee for a hit that drove Doyle over the plate in the second inning with the Giant's first tally. As it developed this run would have won the game for the Giants, as Rube Benton blanked the Reds.

If Fletcher's batting has been of a timely nature his fielding has been doubly so. Of course he has booted a few grounders, but at critical moments, when the blocking of a hard hit ball has meant the checking of an incipient rally by the opposing club, he has not been found wanting. Fletcher is one of the players who because of his age and length of service was regarded rather pityingly by sundry critics at the start of the season, but he is hardly in any need of sympathy.

## ENGLISH DERBY REVIVED

### Grand Parade Wins First Place At Epsom Downs Classic

LONDON, June 4.—Grand Parade won the Derby at Epsom Downs today. Buchanan was second and Paper Money third. Thirteen horses ran.

Grand Parade, the winner of the Derby, owned by Lord Glanely, is a son of Orby, the horse which won the Derby for Richard Vicker in 1907. The betting against Grand Parade in the ante-post, wagering was 33 to 1, but as the time for the race approached he was taken up by many bettors, who reaped a good harvest.

Buchanan, the second horse, was 3 to 1 in the betting, and Paper Money, who finished third, was 7 to 1.

The bookmakers are the greatest gamblers by the result, as the public's money was largely on The Panther, who is also the son of a celebrated American-owned horse, August Belmont's Tracery, winner of the Eclipse Stakes in 1913 and the St. Leger the previous year.

Major Waldorf Astor is the owner of Buchanan and Sir Walter Wilby of Paper Money. The stakes are valued at 6,500 sovereigns (about \$31,600 at normal exchange rates) and is for three colts and fillies of three years old. The course is about one mile and a half in length. There were 234 entries originally for this year's race.

The spectacle at the race course lacked nothing of the pre-war color today, and had a strong tinge of khaki. King George, Queen Mary, with the Prince of Wales and Princess Mary, drove from the tower in Landau. All the familiar figures from the Earl of Lonsdale, the Dean of English sportsmen, wearing his silk hat, to bookmakers from all parts of the kingdom, were present.

## LIMA ATTORNEY EN ROUTE HOME

After having served for many months as athletic director among the American doughboys in France, Warren J. McLaughlin, has arrived in New York City en route to his home in Lima.

McLaughlin, who was a prominent attorney here prior to his entering the war service, was with the 80th division most of his time in France. He was stationed around Le Mans and vicinity for many months, in connection with the Y. M. C. A.

## TENNIS CHAMP. TO PLAY JAP

CLEVELAND.—Lindley Murray, national tennis champion, Thursday accepted the invitation to play Ichiro Kumagata here July 26, the closing date of the tri-state doubles tournament.

Best grade of flour, \$12.50 per bbl. at Dorsey's.

## Watching the Scoreboard

Wednesday's hero—Earl Hamilton. He held the Cubs scoreless and then in the tenth busted out the hit that sent the Pirates' winning run across.

This thing of two homers in one game is catching. Ping Bodie started it and then along came George Sisler with a similar stunt. Wednesday Bob Roth pulled it, but the Athletics lost 10 to 7. Red Sox pulled themselves together and defeated the Senators 8 to 3. Braves were well trampled in the first contest by the Dodgers, but were successful in the second, 6 to 3. The Reds tripped over good pitching, and the Cardinals won another 4 to 3.

Eat more Graham's ice cream. It's just right.

## VETERAN PITCHER DOES COMEBACK

NEW YORK.—Every once in awhile, someone enforces over the performance of an old timer, a pitcher or batter or shortstop or something, who has come back with a vigor that foreshadows again great worth as a star ball player. Once in awhile the thing basis, as in the case of Larry or Jack Quinn.

Bill James walked to the center of the infield at Braves Field Wednesday and pitched the last and a part of the sixth inning, against the Dodgers, who, despite their clubbing reputation, were able to reach the former champion speed ball demon of the National league for only six hits, a solitary run romping home in the ninth inning. He fanned a couple of opponents. The same already was lost when George Stallings wanted to see if James was any good and he evidently proved that he was. The rival National league clubs are at liberty to get all the consolation they can out of the probability that James doubtless will be taking his regular turn for the Braves.

There is no enthusiasm over James' successful appearance just yet, but turn your memory back to the closing days of the 1914 season, when three pitchers working in regular turn, lifted a club from last to first place barely before the season's ending. Recall the world's series of that year, when this club won four straight from the Philadelphia Athletics.

James, Rudolph and Tyler were the three fingers. James took one of these world's series games. Since then he has done nothing, because his arm was injured. He deserves encouragement to his attempt to come back.

## SHIPBUILDERS TO PLAY LIMA

The Shipbuilders of Toledo will sail down to Lima Sunday and collide with the Independents in an endeavor to wreck the local crew on the rocks of defeat.

But the Lima boys are getting the much needed practice and have more confidence with each succeeding game. Their three day session with the Rockford Maroons gave them lots of pointers on nifty team work, and aided the old batting eye. Egan and Costello both batted 500 percent in the three games with the Maroons, and are getting the willow trained to smite the leather.

The Shipbuilders played two games against the Lima bunch last season and took both, in exciting and well played matches.

Aragon, the Cuban infielder, who played with the New York American a season or two, is still with the Toledo team, and will be in the lineup Sunday at Murphy street.

The local nine will be strengthened, but the pitcher has not been definitely picked as yet, although Tom-de-plume Pierce will probably pitch the pellet.

## GOLF TOURNEY IN FULL SWING

COLUMBUS.—Thirty-two Ohio golfers will "hop off" Thursday on the second flight of the Ohio Golf Association's 1919 championship tournament for the governor's cup, at the Scioto Country Club.

The governor's cup, which will be awarded the winner Saturday, was presented to the association Wednesday night by Governor Cox at the annual dinner and meeting of the association at the Scioto Club. Templeton Briggs, of Cincinnati, was awarded a medal for the best score of the qualification round.

Wilbur Brooks, Cleveland, was elected president; Templeton Briggs, vice president; and Paul Lindenbergh, Columbus, secretary and treasurer.

Jack Munro, Zanesville, present state champion, will tee off first Thursday morning on the second flight. Munro ran into a lot of trouble Wednesday in the first half of the round and finished with an 81 score.

## GREAT ATHLETIC TEAM OF YANKS IN FRANCE

PARIS.—The newspapers here are warning athletes and the public that the United States will have one of the greatest athletic teams in the inter-allied track and field contests which start next week. France, one paper says, should be prepared.

In the A. F. F. elimination contests, several French records were surpassed, which called attention to the strength of the Americans.

Marks which fell were: 120-yard high hurdles, Ames 17.25 seconds; 220-yard low hurdles, Renick, 25 seconds; 220-yard dash, Teschner, 23 seconds; shot put, Liversedge, 44 feet, 11 3/4 inches; discus, Byrd, 143 feet 4 3/4 inches; pole vault, Floyd, 12 feet 4 inches; 880-yard run, Eby, one minute 56 1/5 seconds; Hammer throw, Ryan, 156 feet.

Now you can notice a big difference in Graham's ice cream.

## Ringside Flashes

Benny Leonard is going to strap his championship crown on his head before he goes in the fight with Lew Tendler, the crack Philadelphia light weight, whose manager makes all sorts of overtures to Billy Glibso, Leonard's manager. Phil Glassman, who takes care of the booking and of Tendler's life, makes a guarantee of \$12,500 to the champion if he will meet Lew in a six round session, and an additional \$2,500 bonus if the champion stays in the battle for the full six.

Billy Bevan, of Wilkesbarre, Pa., will meet "Dutch" Brandt, the Brooklyn featherweight, in a ten-round mill, at an open air show at Wilkesbarre, June 20. Brandt fights Frankie Burns on the 13th in a room at the Bayonne A. A. of Bayonne, N. J. Friday, the 13th has no terrors for either of the boys.

Dick O'Brien is training hard for his coming match with Joe Bonds at the Elmwood Arena next Monday night. The boy wrenched his back while wrestling with Jim Sullivan, the husky welterweight, but he says he is going to hand Joe a surprise package when they get into the ring. Bonds leaves Far Rockaway, N. Y., tomorrow night, to train at Elmwood for the important skirmish.

Jack Britton, welterweight champ, and Ted Lewis, the English boy, will mix in a 12-round affair at Canton, Ohio, July 4th. It will be an open air show. Britton regained his crown in Canton when he knocked Lewis out some time ago.

Lew Tendler, Philadelphia lightweight, knocked out George Chaney, Baltimore, in the first round of their bout in Philadelphia Wednesday night.

From first indications it looks as the Jess Willard was going to be pretty rough with his sparring.

"LIKE A HIGH-CLASS CLUB"

That's the remark made recently about The Hollenden by a man who has patronized this famous hostelry for over twenty years.

And to the thousands who think as this man does there are added daily many who become regular patrons because of the rare combination which The Hollenden offers—the charm of tradition and congenial surroundings, plus quality service, plus up-to-dateness of equipment.

## STRICT ORDERS IN WAR AGAINST THE FLY IN CITY

Stores and Restaurants Are  
Warned by Dr. Burton on  
Hot Weather Rules

Lurelenting war against the fly has been inaugurated by the Lima health department and will be continued until the end, was the announcement made today by Dr. E. G. Burton, health officer. The campaign will be carried to every corner in a determined effort to reduce as far as possible the spread of disease by this carrier.

Stores, restaurants, fruit stands, confectionery shops will come under the ban of the health authorities if they fail to observe the proper regulations in protecting foodstuffs from fly contamination, Dr. Burton declared.

There is something more to be

considered and done than the mere swatting the pest, and public co-operation is necessary to reduce to a minimum the possibility of disease spread thru the media of flies, the health officer averred.

Proprietors of stores are warned that they will not only be expected, but required to properly cover fresh vegetables, fruits, etc., from exposure to contamination, it was declared. Eating places will be required to keep pastry and other edibles free from fly menace, and inspectors will make regular visits to see that the ordinance is enforced, it was said.

Patrons of restaurants are cautioned against accepting milk unless served in individual bottles. It was pointed out that in some places a large opened bottle of milk was kept near coffee urns which was used both in the beverage, and served to patrons desiring a glass of the fluid.

Katherine Rielly, milk inspector, explained this practice is clearly an imposition on customers who should decline to be served other than from original containers. She indicated that following a warning if flagrant violations of the health ordinance continued in the matter of the care and handling of foodstuffs dealers and proprietors would be summar-

ily dealt with.

"The fly menace cannot be over-estimated," asserted Dr. Burton, "and the work of my office would be greatly facilitated, if the public would decline to patronize such places as do not conform to the health regulations relating to the sanitary care of foodstuffs."

## DUMP GROUND IS ASKED BY CITY

Believe Solution of Garbage  
Menace Rests With Own  
ers of Property

Following a conference between Mayor Simpson, Dr. E. G. Burton, health officer and C. F. Stolzenbach, member of the board of health, it is believed that the privilege will be obtained from Charles Schermer, to permit Lima residents to dump garbage on a tract of land owned by him one mile east of the city, until a permanent arrangement can be concluded in the matter of refuse disposal.

This is the outstanding development today in the problem which is causing the Lima residents and the health department deep concern. It was said that Schermer was out of the city and the matter of using the property has not been submitted to him, but in view of the exigency of prevailing conditions, it is confidently believed that he will readily assent.

Dr. Burton declared this was the best available solution in the circumstances, but as there is no appropriation to employ teams or men to move the garbage residents will have to care for this end of the proposition for the time being. Dr. Burton and Mayor Simpson expressed the hope that permission would be obtained today to use the Schermer property, and that formal announcement would be made tomorrow.

Bids for the removal of garbage will be awarded possibly June 14. It will be at least two weeks following that date before systematic collection is in operation, it was said.

## 'FIGHTING PASTOR' RETURNS TO HOME

Rev. King, Wearing D. S. Cross,  
Pays Visit to His  
Family

Captain J. Norman King, Lima's "Fighting Pastor" and the only man from this city to receive the coveted Distinguished Service Cross is at home on a short furlough. Rev. King returned to his home at 911 Franklin street Thursday at noon from Camp Dix, N. J.

He has the distinction of being the only Lima minister who entered the army from here to serve with the American troops that over-reached foreign soil. He was attached to the 310th Infantry of the 78 division and his overseas duty covered a period of one year.

Taking part in all the fighting of his regiment and division, he was under fire more than any other individual of the entire division. He saw service in the Argonne Wood and during the great St. Mihiel drive with his "outfit" from the start to finish.

The captain was awarded the highest military honor to be had in the United States. After the St. Mihiel action he was cited for the decoration and received it the latter part of October, 1918. His disregard for personal danger and his solicitation for wounded men of the regiment, together with his influence for good and in maintaining the morale of the troops won the distinction.

When asked to state the particular action that prompted an appreciative government in presenting the medal he modestly disclaimed his part and had nothing but praise for the men. He refused absolutely to mention his part in winning the decoration and placed all the credit with the men of his regiment. At the time of his reaching New York, the entire regiment gave an ovation to the captain which stirred the city when his part in the great war became known.

Rev. King was formerly pastor of

the Olivet Presbyterian church, but is yet undecided as to what his work will be for the future. It is likely that he will remain in the service. He stated today that he would not return to this city following his discharge.

## MAN WHO BROUGHT FIRST AUTO TO LIMA DRIVES GIANT TRUCK THRU CITY

Harry Russon, who enjoys the distinction of having started Lima some 15 years ago by driving the first automobile thru this city's streets, struck a new note in automobile advancement Thursday morning, by bringing in the Goodyear transcontinental motor truck express van which made the trip from Boston to San Francisco last year in record time.

It was in 1903 or 1904 that Russon drove a Winton touring car to Lima to deliver to Chauncy Lufkin, the Standard Oil King, who died some years ago, at which time the Winton was purchased by Mack P. Colt. The first automobile in Lima created some sensation, the natives respectfully standing back and marveling at the inventive genius of mankind.

Thursday morning Russon brought to town the largest motor truck ever seen in these parts. The rear wheels of this Leviathan are 44-108, next to the largest tire ever produced. The truck weighs 3 1/2 tons loaded, and still it maintains an average speed of 18 miles per hour on the country roads.

This truck made the trip from Boston to San Francisco last October and November in 24 days, 15 hours and 55 minutes, arriving at the western terminus armistice day, November 11th.

Returned to Duty, Previously Reported Missing in Action: Guglielmo Sinibaldi, Bellaire.

WHY SUFFER WITH THE HEAT WHEN A POLAR CUB FAN AT \$9.98 RELIEVES YOU. THE HOOVER-BOND CO.

## K. O. BROWN MAY BOX IN LIMA

It is with considerable pleasure that Limaistic fans will hear that the card being arranged for the opening show of the Lima Athletic Club, scheduled for June 19th, will include K. O. Brown, the sensational boxer who has been a terror to all aspirants up the ladder of championship attainment.

Mike O'Leary, the clever Lima lad, who is in training for his coming bout with Happy McHenry, at Wapakoneta, June 11th, will probably be Brown's opponent, and this attraction will be a suitable one for the first offering of the newly organized athletic club.

The membership campaign for the athletic club is going along at a fast clip, the offer of a boxing show each month to members is attracting fans from all over the county. Final plans on the June 19th show will be made public shortly, but this advance dope on the main event is a buoyant prospect for the balance of the show.

Walter Perry, club matchmaker, is in Toledo, closing details with Brown's manager. Brown will have to train down somewhat as he is overweight for O'Leary's class, but he will have plenty of time to make the right weight.

## HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 35c or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases. Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The R. W. Lane Co., Cleveland, O.

## MISSISSIPPI OFFICER COMING FOR MAN HELD HERE ON BIGAMY CHARGE

According to word from the authorities of De Kalb county, Alabama, to Sheriff Baxter today an officer has left for Lima to return W. J. Turner, 27, arrested here yesterday charged with bigamy, forcery and other offenses.

It is said that Turner married a girl at Luke, Miss., when he already had a wife and posed as a man of wealth and leisure. Other offenses are alleged to have been committed at Fort Payne, Ala. He left the south last April and has been sought all over the country. It was only a meager tip that Sheriff Baxter located him here where he was employed by the White Mount Ice Creamery company under the name of H. P. Killian.

Turner declines to discuss the matter. He will probably be returned south Friday.

USE R. & G. PILLS  
Keep On  
the Right Road

The Podophyllum contained in R. & G. Pills acts directly upon the liver, while the active laxatives also contained in R. & G. Pills act upon the bowels, removing the accumulated poisons from the system—relieving headaches, biliousness and constipation.

Bright eyes, a happy disposition, exuberant spirits spring from a healthy condition of the liver. The popular girl is the healthy girl, the girl we are all glad to meet. Use R. & G. Pills. You know the vegetable ingredients you are taking into your system. Your own doctor can tell you all about them—or, if you ask him, he will tell you. R. & G. Pills 25c the box. All druggists. Advt.

## Every Railroad Man Should Read This

Peterson's Ointment Co., Inc., Buffalo, N. Y. Dear Sirs: I was afflicted with what doctors said were Varicose Ulcers, and up until about five weeks ago I have been treating them for about a year and five months. With all the treatments that were prescribed to me by several doctors I received little benefit, and they kept spending and gave me much distress and I was to quit my work.

I was induced by a brother brakeman to try Peterson's Ointment, and after I had used two boxes I saw the wonderful results you can tell suffering ones troubled with such painful and horrid ulcers that your Ointment is a cure for them when everything else fails as I have tried about everything. Thank you many times over I am, your happy friend Charles J. Heyser, Little Creek, Minn. 42 Glenwood Avenue, January 15, 1919.

"I know and dozens of people write me," says Peterson of Buffalo "that Peterson's Ointment also cures eczema, old sores, salt rheum, piles and all skin diseases, and all druggists sell a big box for 35 cents."

## Short Shavings

Two American negro soldiers were discussing musical instruments. "Yar," said one, "I see gwine ter git me a eucalyptis."

"A what?" queried the other. "A eucalyptis—dat's a musical instrument, fool."

"Go on, nigger! You can't kid me—dat's one ob de books of de Bible."

Douglas, aged seven, did not like the idea of guardian angels watching over him while he slept.

One night his mother found on his pillow a big, black falseface—a souvenir of Hallowe'en—and at the foot of the bed, under the covers, the

child himself, resting comfortably. She asked him what was the matter—why he preferred to sleep upside down, and what was the idea of the falseface.

"Why, I'm just playing a little joke on the Lord! I'm sick and tired of having those old guardian angels watch me the minute I get to sleep!"

Little Pete had been a very bad boy. His father had heard him using some unusually lurid cuss words, and in order to punish him had placed the lad under a barrel, there to remain without his dinner.

But Sister Annabelle Marie felt so sorry for Brother Petey she resolved to go to him and try to console him.

"Couldn't you get me something to eat?" asked Petey through the

bunghole.

"I'll go and see," said Annabelle Marie.

In a few moments Annabelle Marie came back and said through the bunghole:

"I'm sorry, Petey, but the only thing I could find wuz some bean soup and some custard pie."

## BOY BANDITS GET \$4,000; CAPTURED UNDER HOUSE

TOLEDO.—Two youthful pay roll bandits who robbed a clerk employed by the Ohio Dairy Company of a grip containing \$4,000 in front of the concern's office at noon Wednesday, were captured by city detectives, ten minutes later under a house four blocks from the scene of the hold-

up. The money was recovered. Capture of the bandits was largely due to a soldier-policeman aiding the police on strike duty. One of the hold-up men is 22 years old and the other 19.

## Coats Half-Price

For the woman who wants a coat for the cool evenings of summer should have one of these garments.

R. T. Gregg & Co.

## NO MORE RUNNING SORES

Hunter's Drug Stores, and Butler's South Side Drug Store Sell An Ointment Called San Cura That is a Positive Relief.

It matters not how old, persistent or poisonous the sore is. San Cura Ointment the powerful antiseptic will draw out the poison and promptly heal the sore.

So sure of this are the owners, the Thompson Medical Co., that they have authorized Hunter's Drug Stores and Butler's South Side Drug Store to return the purchase price if San Cura Ointment doesn't do all this paper says it will do. No fairer offer was ever made.

B. D. Dutton, Titusville, Pa., says: "My arm was covered with twenty-four running sores and swollen to twice its natural size. San Cura Ointment relieved the pain, drew out the poison and healed the arm in an incredibly short time. It is the greatest compound for healing I ever used."

The healing powers of San Cura Ointment are little short of marvelous. It gives relief, and is guaranteed to help salt rheum, eczema, bleeding, itching or protruding piles, ulcers, boils, carbuncles, chapped hands and chilblains. In cuts, burns, scalds and bruises, it allays pain and is healing. 30c, 60c, and \$1.20 a jar. By mail on receipt of price if your druggist is out of it or does not keep it.

## SAN CURA SOAP

For tender, itching or irritable skin wash with San-Cura Soap, the antiseptic soap that soothes and heals, and kills germs of disease. Great for pimples, blackheads, and makes the complexion clear and attractive. 25c at Hunter's Drug Store, and Butler's South Side Drug Store.

Mail orders for San Cura Ointment and soap filled by Thompson Medical Co., Titusville, Pa.

## BLEUM'S

### Cool, Fluttering Frocks Make Great Ado About This Hot Weather. They Know A Great, Comfort- able Secret

From their smiling countenances they beam a cool confidence!

They know quite well that they can bring worlds of comfort to woman-kind in these days of sweltering 90's, 91's and 96's in the shade.

The materials from which they are made up are just about as sheer, as sheer can be; and incidentally just that cool.

There are Organdies, Georgettes and Voiles that defy the weavers to make prettier, finer fabrics for summer wearing.

In materials a wee bit stouter come Gingham frocks, Linen Frocks and the latest craze of English print affairs.

Method of fashion is varied. Some follow on the previous lines with small deviations that almost change the entire aspect.

Taken all in all, it is the finest group of Dresses that has ever seen the light of Lima, and the prices are mighty reasonable.

THIRD FLOOR.

ASK any Firestone Truck Tire user in this city about his experience with them. Ask him about the kind of service he gets from our tire press, our other tire machinery and—our men. You'll get the reasons, straight from the shoulder, why over half the truck tonnage of America is carried on Firestone Tires.

And when you put Firestone Truck Tires on your truck you'll find that it runs faster with safety, wears less and keeps moving on less gasoline.

Let us prove these things.

The fact is—  
Over half the Truck Tonnage of America is carried on
